BEC
(BID EVALUATION
CRITERIA)

SECTION -II

(BID EVALUATION CRITERIA)

TECHNICAL CRITERIA:

A) TECHNICAL ELIGIBILITY CRITERIA:

Bidder shall have experience of having successfully carried out One (01) work order which include “Implementation of GIS based Asset Management System which includes Underground Gas pipeline detection survey using CS pipeline Locator and GPS/DGPS instrument along with Development of GIS based Web and Mobile Application” with minimum value of INR. 2.06 Cr. under single work order/contract for any CGD/Oil/Gas Sector in India in preceding last Seven (07) years.

Note:

- a. Supply or customization of any Commercial Off-The-Shelf (COTS) Software, including OEM GIS Solutions shall not be considered for evaluation.
- b. Work Order and Completion/Execution value shall be considered including GST.
- c. Bidding through JV or in a consortium is not permitted.

Document Proof:

- Bidder must submit Work Order
- Completion/Execution Certificate issued directly from the client where executed value must be accordance to the technical eligibility criteria.
- Bidder must submit Go-live certificate of the software application issued from the same client.
- Bidder to submit its organizational organogram clearly depicting technical manpower duly certified by competent authority.
- Bidder must submit valid Quality Certificate:
 - a. ISACA CMMI Level with Appraisal ID for IT/Software Development Services, CMMI Appraisal Result must be verified from this portal (<https://cmminstitute.com/pars>)
 - Bidder must have their ownership of survey Instrument at the time of bidding as mentioned below;
 - a) 1 Nos. of CS Pipeline Locator

b) 6 Nos. of CORS enabled DGPS / Hand held GPS Instrument

Document Proof:

Regarding ownership, copy of invoice in the name of bidder must be enclosed.

- All submitted documents shall be certified, signed & stamped by Notary.

For Running Contract

Copy of Execution Certificate against Order/LOA/Contract for the running contract must be submitted / uploaded clearly mentioning the executed value. The execution certificate must contain detailed information like Order/LOA/Contract/Agreement No. with date, Brief Scope of work / Name of work, Order value, Total executed value, etc. The Execution Certificate should have been issued by the end user/owner.

B) EVALUATION METHODOLOGY:

Evaluation shall be on lowest price package basis.

FINANCIAL CRITERIA

Annual Turnover

The minimum annual turnover achieved by the Bidder as per their audited financial results during any one of the preceding three (03) financial years should be as below:

Minimum annual turnover : Rs. 206.33 Lacs.

Net worth

Net worth of the Bidder should be positive as per the last audited financial statement.

Working capital

The minimum working capital of the Bidder as per the last audited financial statement should be as below:

Minimum working capital: Rs. 41.27 Lacs.

If the bidder's working capital is inadequate, the bidder should supplement this with a letter from the bidder's bank, having a net worth of not less than Rs. 100 crores, confirming the availability of a line of credit to cover the inadequacy of the previous year and meet the current working capital requirement.

In case of tenders having the bid closing date up to 30th September of the relevant financial years and audited financial results of immediate 3 (three) preceding financial years being not available, the bidder has an option to submit the audited financial results of three years immediately prior to that

relevant financial year. Wherever, the bid closing date is after 30th September of the relevant financial year, bidder has to compulsorily submit the audited financial results of immediate preceding three financial years.

Bidder shall meet the qualification criteria as stated Bid Evaluation Criteria. Bidder shall furnish following documents along with the bid, to justify meeting the stipulated qualification criteria.

- Annual audited reports including Balance Sheets and Profit & Loss account statement for which the data to be provided so that the data provided above can be verified. In case, Audit is not mandatory as per the Statutory Norms for Bidder, the bidder is required to submit a copy of the Annual Accounts duly certified by a Chartered Accountant along with the copy of Income Tax Return.
- Owner reserves the right to get direct feedback from user on satisfactory performance.

If bidder fails to provide the requisite documents, CUGL reserves the right to reject the Bid.

The price evaluation shall be done on Package basis.

Note

“ Financial Bid Documents”

Bidders are required to submit the single PDF in the name of ‘Financial Bid Documents’ of following documents:

1. Balance Sheet
2. ITR
3. CA certificates

BIDDER)

SECTION -III

INSTRUCTIONS TO BIDDERS
INSTRUCTION FOR ONLINE BID SUBMISSION
SECTION -A

NOTE: Bidders are advised to complete the registration with e-tender portal (<https://etenders.gov.in>) at least two working days prior to bid submission date.

Please note that in accordance with the general conditions of tender, CUGL may amend these dates of the tender process at its sole discretion. In case any of the specified dates are declared a public holiday, the deadline shall be the next working date.

1.0 BIDDING PROCEDURE

Bidding will be conducted through Open Domestic Tendering. Single Stage Two Bid system is adopted for this tender. The submission and opening of bids will be through e-tendering mode at <https://etenders.gov.in/eprocure/app>. Tender document can be downloaded from the website <https://etenders.gov.in/eprocure/app> or from e-tender link given on official CUGL website www.cugl.co.in

Note: To participate in the e-tendering, it is mandatory for the bidders to have user ID & password. For this purpose, the bidder has to register itself on CPPP's website <https://etenders.gov.in/eprocure/app>. Please also note that the bidder has to obtain digital signature token for applying in the tender and in general, activation of registration may take 24 hours' subject to the submission of all requisite documents required in the process.

Note: CUGL in no way shall be responsible if the bidder fails to apply due to non-possession of Digital Signature & non-registration.

(The bids must be submitted online in electronic form on <https://etenders.gov.in/eprocure/app> only. No physical bids will be accepted.)

2.0 DOWNLOADING OF TENDER DOCUMENT

The tender document is available for downloading from CPPP's e-tendering website <https://etenders.gov.in/eprocure/app> or from e-tender link given on official CUGL website www.cugl.co.in for viewing / participation of the eligible bidders. Bidders meeting the bid evaluation criteria who intend to submit their bid may download the tender for submission by the bid due date and time. Bidders shall give an undertaking on his letterhead that the contents of the bidding document have not been altered or modified. Bid evaluation criteria shall be applicable for all the bidders.

Disclaimer clause: Bidders are advised to visit CPPP's e-tendering website and CUGL website regularly for any updates on the tender. The ignorance to visit the website will not be accepted as a reason for any gap / missing information like corrigenda, amendments, clarifications etc.

INSTRUCTIONS TO BIDDERS
INSTRUCTION FOR ONLINE BID SUBMISSION
SECTION -B

The bidders are required to submit soft copies of their bids electronically on the Central Public Procurement (CPP) Portal i.e. <http://etenders.gov.in/eprocure/app>, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

REGISTRATION:

- (i) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL:<https://etenders.gov.in/eprocure/app>) by clicking on the link “Online Bidder Enrolment” option available on the home page. **Enrolment on the CPP Portal is free of charge.**
- (ii) During enrolment/ registration, the bidders should provide the correct / true information including valid email-id & mobile no. All the correspondence shall be made directly with the contractors / bidders through email-id provided.
- (iii) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- (iv) For e-tendering, possession of valid Digital Signature Certificate (Class III Certificates with signing key usage) is mandatory which can be obtained from SIFY /nCode/eMudra or any Certifying Authority recognized by CCA India on eToken/ SmartCard.
- (v) Upon enrolment on CPP Portal for e-tendering, the bidders shall register their valid Digital Signature Certificate with their profile.
- (vi) Only one valid DSC should be registered by a bidder. Bidders are responsible to ensure that they do not lend their DSCs to others which may lead to misuse and should ensure safety of the same.
- (vii) Bidders can then log into the site through the secured login by entering their user ID/ password and the password of the DSC/ eToken.

SEARCHING FOR TENDER DOCUMENTS:

- 1) There are various search options built in the CPP Portal to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, organization name, location, date, value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine several search parameters such as organization name, form of contract, location, date, other keywords, etc., to search for a tender published on the CPP Portal.
- 2) Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.
- 3) The bidder should make a note of the unique Tender ID assigned to each tender in case they want to obtain any clarification / help from the Helpdesk.

PREPARATION OF BIDS:

- (i) For preparation of bid, Bidders shall search the tender from published tender list available on site and download the complete tender document and should consider corrigendum if any published before submitting their bids.

After selecting the tender document same shall be moved to the 'My favorite' folder of bidders account from where bidder can view all the details of the tender document.

- (ii) Bidder shall go through the tender document carefully to understand the documents required to be submitted as part of the bid. Bidders shall note the number of covers in which the bid documents have to be submitted, the number of documents — including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- (iii) Any pre-bid clarifications if required, then same may be obtained online through the tender site, or through the contact details given in the tender document.
- (iv) Bidders should get ready in advance the bid documents in the required format (PDF/xls/rar/dwf/jpg formats) to be submitted as indicated in the tender document/schedule. **Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.**

- (v) Bidders can update well in advance, the documents such as experience certificates, annual report, PAN, EPF & other details etc., under “My Space/ Other Important Document” option, which can be submitted as per tender requirements. This will facilitate the bid submission process faster by reducing upload time of bids.

SUBMISSION OF BIDS:

- (i) Bidder should log into the site well in advance for bid submission so that he/ she upload the bid in time i.e., on or before the bid submission time. Bidder will be responsible for any delay.
- (ii) Bidder should prepare the EMD as per the instructions specified in the NIT/ tender document. The details of the DD/BG/others physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise, the uploaded bid will be rejected.
- (iii) While submitting the bids online, the bidder shall read the terms & conditions (of CPP portal) and accepts the same to proceed further to submit their bid.
- (iv) Bidders shall select the payment option as offline to pay the EMD and enter details of the DD/BG/others.
- (v) Bidder shall digitally sign and upload the required bid documents one by one as indicated in the tender document.
- (vi) Bidders shall note that the very act of using DSC for downloading the tender document and uploading their offers is deemed to be a confirmation that they have read all sections and pages of the tender document without any exception and have understood the complete tender document and are clear about the requirements of the tender document.
- (vii) Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document. For the file size of less than 1 MB, the transaction uploading time will be very fast.
- (viii) **If price quotes are required in XLS format, utmost care shall be taken for uploading Schedule of quantities & Prices and any change/ modification of the price schedule shall render it unfit for bidding. Bidders shall download the Schedule of Quantities & Prices i.e., Schedule of Rates, in XLS format and save it without changing the name of the file. Bidder shall quote their rate in figures in the appropriate cells, thereafter, save and upload the file in financial bid cover (Price bid) only.**

If the template of Schedule of Quantities & Prices file is found to be modified/corrupted in the eventuality by the bidder, the bid will be rejected and further dealt as per provision of tender including forfeiture of EMD.

The bidders are cautioned that uploading of financial bid elsewhere i.e., other than in cover 2 will result in rejection of the tender.

- (ix) Bidders shall submit their bids through online e-tendering system to the Tender Inviting Authority (TIA) well before the bid submission end date & time (as per Server System Clock). **The TIA will not be held responsible for any sort of delay or the difficulties faced during the submission of bids online by the bidders at the eleventh hour.**
- (x) After the bid submission (i.e., after Clicking “Freeze Bid Submission” in the portal), the bidders shall **take print out of system generated acknowledgement** number and keep it as a record of evidence for online submission of bid, which will also act as an entry pass to participate in the bid opening.
- (xi) Bidders should follow the server time being displayed on bidder’s dashboard at the top of the tender site, which shall be considered valid for all actions of requesting, bid submission, bid opening etc., in the e-tender system.
- (xii) All the documents being submitted by the bidders would be encrypted using PKI (Public Key Infrastructure) encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128-bit encryption technology.

ASSISTANCE TO BIDDERS:

- (i) Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contract person indicated in the tender.

Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24X7 CPP Portal Helpdesk. The 24 x 7 Help Desk Number 0120-4001002, 0120-4001 005 and 0120-6277 787. The helpdesk email id is support-eproc@nic.in

A. GENERAL

1.0 SCOPE OF BID:

- 1.1 The Employer/ Owner/ CUGL as defined in the "General Conditions of Contract [GCC]", wishes to receive Bids as described in the Bidding Document/Tender document issued by Employer/Owner/CUGL.
- 1.2 SCOPE OF BID: The scope of work/ Services shall be as defined in the Bidding documents.
- 1.3 The successful bidder will be expected to complete the scope of Bid within the period stated in Special Conditions of Contract.
- 1.4 Throughout the Bidding Documents, the terms 'Bid', 'Tender' & 'Offer' and their derivatives [Bidder/Tenderer, Bid/Tender/Offer etc.] are synonymous. Further, 'Day' means 'Calendar Day' and 'Singular' also means 'Plural'.

2.0 ELIGIBLE BIDDERS:

- 2.1 The Bidder shall not be under a declaration of ineligibility by Employer for Corrupt & Fraudulent practices, as defined in "Instructions to Bidders [ITB], Clause No. 39"
- 2.2 The Bidder is not put on 'Holiday' by CUGL or banned/blacklisted by Government department/ Public Sector on due date of submission of bid. If the bidding documents were issued inadvertently/ downloaded from website, offers submitted by such bidders shall not be considered for opening/ evaluation/Award and will be returned immediately to such bidders.

In case there is any change in status of the declaration prior to award of contract, the same has to be promptly informed to CUGL by the bidder.

It shall be the sole responsibility of the bidder to inform CUGL in case the bidder is put on 'Holiday' by CUGL or banned/blacklisted by Government department/ Public Sector on due date of submission of bid and during the course of finalization of the tender. Concealment of the facts shall tantamount to misrepresentation of facts and shall lead to action against such Bidders as per clause 39 of ITB.

- 2.3 The Bidder should not be under any liquidation court receivership or similar proceedings on due date of submission of bid.

In case there is any change in status of the declaration prior to award of contract, the same has to be promptly informed to CUGL by the bidder.

It shall be the sole responsibility of the bidder to inform CUGL in case the bidder is under any liquidation court receivership or similar proceedings on due date of

submission of bid and during the course of finalization of the tender. Concealment of the facts shall tantamount to misrepresentation of facts and shall lead to action against such Bidders as per clause no.39 of ITB.

2.4 Bidder shall not be affiliated with a firm or entity:

- (i) that has provided consulting services related to the work to the Employer during the preparatory stages of the work or of the project of which the works/services forms a part of or
- (ii) that has been hired (proposed to be hired) by the Employer as an Engineer/ Consultant for the contract.

2.5 Pursuant to qualification criteria set forth in the bidding document, the Bidder shall furnish all necessary supporting documentary evidence to establish Bidder's claim of meeting qualification criteria.

3.0 BIDS FROM JOINT VENTURE/CONSORTIUM

NA

4.0 ONE BID PER BIDDER

4.1 A Firm/Bidder shall submit only 'one [01] Bid' in the same Bidding Process. A Bidder who submits or participates in more than 'one [01] Bid' will cause all the proposals in which the Bidder has participated to be disqualified.

4.2 Alternative Bids shall not be considered.

5.0 COST OF BIDDING

5.1 The Bidder shall bear all costs associated with the preparation and submission of the Bid including but not limited to Bank charges all courier charges including taxes & duties etc. incurred thereof. Further, CUGL will in no case, be responsible or liable for these costs, regardless of the outcome of the bidding process.

6.0 SITE VISIT

6.1 The Bidder is advised to visit and examine the site of works and its surroundings and obtain for itself on its own responsibility all information that may be necessary for preparing the Bid and entering into a Contract for the required job. The costs of visiting the site shall be borne by the Bidder.

6.1 The Bidder or any of its personnel or agents shall be granted permission by the Employer to enter upon its premises and land for the purpose of such visits, but

only upon the express conditions that the Bidder, its personnel and agents will release and indemnify the Employer and its personnel, agents from and against all liabilities in respect thereof, and will be responsible for death or injury, loss or damage to property, and any other loss, damage, costs, and expenses incurred as a result of inspection.

- 6.3 The Bidder shall not be entitled to hold any claim against CUGL for non-compliance due to lack of any kind of pre-requisite information as it is the sole responsibility of the Bidder to obtain all the necessary information with regard to site, surrounding, working conditions, weather etc. on its own before submission of the bid.
-

B BIDDING DOCUMENTS

7.0 CONTENT OF BIDDING DOCUMENT

- 7.1 The contents of bidding documents/Tender documents are those stated below and should be read in conjunction with any addenda/corrigendum issued in accordance with ITB clause no. 9.0

- Section –I : Invitation for bids (IFB)
- Section II : BEC (Bid Evaluation Criteria)
- Section –III : Instruction to Bidders (ITB)
- Section-IV : General conditions of Contract (GCC)
- Section-V: Forms & Format
- Section –VI: Scope of work (SOW)
- Section –VII: HSE Specification
- Section-VIII: Price schedule/Schedule of Rates (SOR)

- 7.2 The bidder is expected to examine all instructions, forms, terms, specifications and drawings in the bidding documents. The Bidding Document together with all its attachment thereto, shall be considered to be read Understood and accepted by the bidder. Failure to furnish all information required by the Bid Documents or Submission of a bid not substantially responsive to the Bidding Documents in every respect will be at bidders risk and may result in the rejection of the Bid.

8.0 CLARIFICATION ON BID DOCUMENTS

- 8.1 A prospective bidder requiring any clarification of the Bidding Documents may notify OWNER in writing or by fax or e-mail at the address indicated in the Invitation for Bids. OWNER will respond in writing to any request for clarification of the Bidding documents which it receives not later than 5 days prior to the deadline for the submission of bids prescribed by OWNER. Written copies of OWNER response (including an explanation of the query but without

identifying the source of the query) will be sent to all bidders to whom the bidding documents were issued. Any Clarification or information required by the bidder and not received within the stipulated time period shall be liable to be considered as no clarification/information required.

- 8.2 In case pre-bid conference is envisaged, all quotations/queries should be referred to OWNER at least 3 days before scheduled date of pre bid conference. The questions/queries received by OWNER prior to pre-bid conference will be replied in the pre-bid conference.

9.0 AMENDMENT OF BID DOCUMENTS

- 9.1 At any time prior to the deadline for submission of bids, the OWNER may, for any reason, whether on its own requirement or in response to a clarification requested by prospective bidders, modify the Bidding Documents by issuing addenda/corrigendum.
- 9.2 Any addendum thus issued shall be part of the Bidding Documents and shall be notified in writing by fax/post/email to all the bidders to whom the bidding documents were issued. Prospective bidders shall promptly acknowledge receipt of each addendum by fax/post/to the Owner/ Consultant and take the same in the account all such addendum before submitting their bids.
- 9.3 The OWNER/Consultant may, at its discretion, extend the date of submission of Bids in order to allow the bidders a reasonable time to furnish their most competitive bid taking into account the amendments issued.

C. PREPARATION OF BIDS

10.0 LANGUAGE OF BID

- 10.1 The bid prepared by the bidder, all correspondence/drawings and documents relating to the bid exchanged by the bidder with the OWNER/Consultant shall be written in English Language alone provided. Any printed literature furnished by the bidder may be written in another language so long as accompanied by an English translation duly authentication by the chamber of commerce of bidders country, in which case, for the purpose of interpretation of the bid, the English translation shall govern.
- 10.2 In the event of submission of any document/certificate by the bidder in a language other than English, the Bidder shall submit the English translation of the same duly authenticated by Chamber of Commerce of Bidder's country.

10.0 DOCUMENTS COMPRISING THE BID

11.1 The bid prepared by the bidder shall comprise the following:

11.1.1 Part-I : TECHNO-COMMERCIAL UN-PRICED BID (PART-1)

Part-I: Techno-commercial/un-priced Bid shall contain the following documents:

- a) 'Covering Letter' on Bidder's 'Letterhead' clearly specifying the enclosed contents.
- b) 'Bidder's General Information', as per 'Form F-1'.
- c) 'Bid Form', as per 'Form F-2'
- d) Copies of documents, as required in 'Form F-3'
- e) As a confirmation that the prices are quoted in requisite format complying with the requirements copy of Schedule of Rate (SOR) with prices blanked out mentioning quoted / not quoted (as applicable) written against each item.
- f) 'Letter of Authority' on the Letter Head, as per 'Form F-5'
- g) 'No Deviation Confirmation', as per 'Form F-6'
- h) 'Bidder's Declaration regarding Bankruptcy', in 'Form F-7'
- i) 'Certificate for Non-Involvement of Government of India ' from Bidder, as per 'Form F-8'
- j) 'Agreed Terms and Conditions', as per 'Form F-10'
- k) Duly attested documents in accordance with the "BID EVALUATION CRITERIA [BEC]" establishing the qualification.
- l) Undertaking on the Letter head, as per the Form F-12.
- m) Power of Attorney for authorized signatory in non-judicial stamp paper/copy of Board Resolution, the authorized signatory shall be signing the bid and any consequence resulting due to such signing shall be binding on the bidder.
- n) Any other information/details required as per Bidding Document
- o) All forms and Formats including Annexures.
- p) EMD /Bid Security
- q) Tender document duly signed by authorized signatory.
- r) All the pages of the Bid must be signed by the "Authorized Signatory" of the Bidder.

Further, Bidders are required to upload the scanned copy of EMD/ Bid Security on e-tender portal within due date & time, the hard copy of same must be received in CUGL office, in a sealed envelope, superscribing the details of Tender Document (i.e. tender number & tender for) within 5 days from the Bid Due Date.

Sr. Manager (C&P)
Central UP Gas Ltd,
UPSIDC Complex 7th Floor, A-1/4,
Lakhanpur, Kanpur,
Uttar Pradesh 208024

Bidders are required to submit the EMD in original by Bid Due Date and Time or upload a scanned copy of the same in the Part-I of the Bid. If the Bidder is unable to submit EMD in original by Bid Due Date and Time, the Bidder is required to upload a scanned copy of the EMD in Part-I of Bid, provided the original EMD, copy of which has been uploaded, is received within 5 days from the Bid Due Date, failing which the Bid will be rejected irrespective of their status/ranking in tendering process and notwithstanding the fact that a copy of EMD was earlier uploaded by the Bidder.

11.1.2 PART-II : “PRICE BID – NOT TO OPEN WITH TECHNO-COMMERCIAL UN-PRICED BID”-PART-II

11.1.3 Part-II: PRICE BID

Part-II of the BID shall contain Price Bid only. The Prices are to be submitted strictly in the Price Schedule/Schedule of Rate (SOR) format of the Tender Document. CUGL shall not be responsible for any failure on the part of the bidder to follow the instructions given in the Note below:

Note

- i) Bidders are advised NOT to mention Rebate/Discount separately, either in the SOR format or anywhere else in the Bid. In case Bidder(s) intend to offer any Rebate/Discount, they should include the same in the item rate(s) itself under the “Price Schedule/Schedule of Rates (SOR)” and indicate the discounted unit rate(s) only.
- ii) If any unconditional rebate has been offered in the quoted rate the same shall be considered in arriving at evaluated price. However, no cognizance shall be taken for any conditional discount for the purpose of evaluation of the Bid.
- iii) In case, it is observed that any of the Bidder(s) has/have offered suo-moto Discount/Rebate after opening of unpriced bid but before opening of price bid, such discount/rebate(s) shall not be considered for evaluation. However, in the event of the Bidder emerging as the lowest evaluated Bidder without considering the discount/rebate(s), then such discount/rebate(s) offered by the Bidder shall be considered for Award and the same will be conclusive and binding on the Bidder.
- iv) In the event as a result of techno-commercial discussions or pursuant to seeking clarifications / confirmations from Bidder, while evaluating the un-priced part of the Bid, any of the bidders offers upward revised prices; such Bidder(s) will be requested to withdraw the revised prices failing which the bid will not be considered for further evaluation. In case, any of the bidders offers discount/rebate / downward revised prices, the same shall not be considered for evaluation and their bid will be evaluated as per the original price bid. However, in the event of the Bidder emerging

as the lowest evaluated Bidder without considering the discount/rebate(s), then such discount/rebate(s) offered by the Bidder shall be considered for Award and the same will be conclusive and binding on the Bidder.

- v) In case any bidder does not quote for any item(s) of “Schedule of Rates” and the estimated price impact is more than 10% of the quoted price, then the bid will be rejected. If such price impact of unquoted items is 10% or less of his quoted price, then the unquoted item(s) shall be loaded highest of the price quoted by the other bidders . If such bidder happens to be lowest evaluated bidder, price of unquoted items shall be considered as included in the quoted bid price.

11.1.4 NA

12 BID PRICES

12.1 Bidders shall indicate the following in the Price Schedule/SOR format:-

- A) Ex-works Price including packing and forwarding charges (such price to include all costs as well as duties and taxes paid or payable on components and raw materials incorporated or to be incorporated in the goods).
- B) GST (CGST & SGST/UTGST or IGST) on the finished goods including inland transportation (which will be payable on the finished goods, if this Contract is awarded.
- C) The Bidder shall indicated breakup of the quantum of imports involved for import of necessary raw materials and components giving CIF value of Import and included in bid price.

12.2 In case of import of raw material and components incorporated or to be incorporated in the finished goods (clause no. 12.1 (C) refers), the Bidder shall provide description of such material, quantity, rate, value, Import Duty considered etc. as per proforma provided in Price Schedule/ SOR.

12.3 It shall be the endeavour of the Purchase to arrange transit insurance (if applicable). For the purpose of arranging transit insurance of the goods dispatched / shipped, vendors are required to furnish the dispatch / shipping particulars to the Insurance Company giving complete details of dispatches along with Policy No. etc.

12.4 Prices must be filled exactly in the format for “Price Schedule/ Schedule of Rates (SOR)” enclosed as part of Tender Document. If quoted in separate typed sheets and any variation in item description, unit, quantity, any conditions of SOR etc., is noticed, the Bid is liable to be rejected.

- 12.5 The date of receipt of materials shall be considered as date of delivery. Other terms shall be interpreted as per INCOTERMS®2020 or its latest version.
- 12.6 All duties, taxes and other levies (if any) payable by the Seller under the Contract or for any other cause, except GST (CGST & SGST/UTGST or IGST) on finished product & on the incidental services, shall be included in the rates / prices and the total bid-price submitted by the Bidder. The quoted rate of GST (CGST & SGST/UTGST or IGST) on finished product & on the incidental services shall be indicated in F-10 and the bid prices. Bidders are required to quote the prices after carefully reading the provisions mentioned in tender document including SCC, GCC, Scope of work, etc.
- 12.7 Prices quoted by the Bidder, shall remain firm and fixed and valid until completion of the Contract and will not be subject to variation on any account, whatsoever.
- 12.8 The Bidder shall quote the rates in 'figures' & 'words', as per Price Schedule /SOR format provided in the Tender Document. There should not be any discrepancy between the prices indicated in figures and in words. In case of any discrepancy, the same shall be dealt as per clause no. 32 of ITB.
- 12.9 Further, Bidder shall also mention the Harmonized System Nomenclature (HSN)/ SAC (Service application code) at the designated place in Price Schedule.

13 TAXES & DUTIES

- 13.1 Within the contractual delivery period, the statutory variation in applicable GST (CGST & SGST/UTGST or IGST) on supply and on incidental services, shall be to CUGL's account.

Beyond the contractual delivery period, in case CUGL is not entitled for input tax credit of GST (CGST & SGST/UTGST or IGST), then any increase in the rate of GST (CGST & SGST/UTGST or IGST) beyond the contractual delivery period shall be to Supplier's account whereas any decrease in the rate GST (CGST & SGST/UTGST or IGST) shall be passed on to the Purchaser.

Beyond the contractual delivery period, in case CUGL is entitled for input tax credit of GST (CGST & SGST/UTGST or IGST), then statutory variation in applicable GST (CGST & SGST/UTGST or IGST) on supply and on incidental services, shall be to CUGL' account.

The base date for the purpose of applying statutory variation shall be the Bid Due Date.

- 13.2 In case of statutory variation(s) in the taxes & duties mentioned at clause no. 13.1 above, the Supplier shall submit a copy of the 'Government Notification' to evidence the rate as applicable on the Bid Due Date and on the date of revision. Claim for payment of Statutory variation should be raised preferably along with the Invoice. Any claim for arrears on account of statutory variation shall be submitted to Purchaser within two (02) months from the date of issue of such 'Government Notification', otherwise such claim may not be entertained.
- 13.3 With respect to clause no. 12.1 (C) and 12.2, the statutory variation in Import Duty (except component (s) for which input tax credit is available) on CIF value indicated, within contractual delivery period shall be to Purchaser's account against submission of the documentary evidence. However, any increase in the rate of Import Duty beyond the contractual delivery / completion period shall be to Bidder's account. In case of wrong classification, no variation including statutory variation of Import Duty will be payable to Supplier and any penalty due to the same shall be to Supplier's account. Any decrease in the rate of Import Duty shall be passed on to the Purchaser. Statutory variation on account of Import Duty will be allowed only on component for which input tax credit is not available.
- 13.4 New Taxes & duties: Any new taxes & duties, if imposed by the State/Central Govt. of India on the finished goods after the due date of bid submission but before the Contractual Delivery/Completion Date, shall be reimbursed to the Supplier on submission of copy of notification(s) issued from State/Central Govt. Authorities along with documentary evidence for proof of payment of such taxes & duties, but only after ascertaining it's applicability with respect to the Contract.
- 13.5 Deemed Export benefits are not applicable and Bidder should furnish prices without considering the same.
- 13.6 Supplier shall ensure timely submission of correct invoice(s), as per GST rules/regulation, with all required supporting document(s) without a period specified in Contract to enable CUGL to avail input credit of GST (CGST & SGST/UTGST or IGST). Further, returns and details required to be filled under GST laws & rules should be timely filed by Supplier of Goods/Services with requisite details.

If input tax credit is not available to CUGL for any reason not attributable to CUGL, then CUGL shall not be obligated or liable to pay or reimburse GST (CGST & SGST/UTGST or IGST) claimed in the invoice(s) and shall be entitled to deduct/setoff /recover such GST (CGST & SGST/UTGST or IGST) together with all penalties and interest, if any, against any amounts paid or payable by CUGL to the Suppliers.

- 13.7 The supplier shall mention the particulars of CUGL on the Invoice. Besides, if any other particulars of CUGL are required to be mentioned, under GST rules/regulations on the date of dispatch, the same shall also be mentioned on the Invoice.
- 13.8 In case CBEC (Central Board of Excise and Customs)/ any equivalent government agency brings to the notice of CUGL that the Supplier has not remitted the amount towards GST (CGST & SGST/UTGST or IGST) collected from CUGL to the government exchequer, then, that Supplier shall be put under Holiday list of CUGL for period of six months.
- 13.9 CUGL will prefer to deal with registered supplier of goods/ services under GST. Therefore, bidders are requested to get themselves registered under GST, if not registered yet.

However, in case any unregistered bidder is submitting their bid, their prices will be loaded with applicable GST (CGST & SGST/UTGST or IGST) during evaluation of bid. Where CUGL is entitled for input credit of GST (CGST & SGST/UTGST or IGST), the same will be considered for evaluation of bid as per evaluation methodology of tender document.

- 13.10 In case the GST rating of vendor on the GST portal / Govt. Official website is negative / black listed, then the bids may be rejected by CUGL. Further, in case rating of bidder is negative / black listed, after award of work for supply of goods / services, then CUGL shall not be obligated or liable to pay or reimburse **GST (CGST & SGST/UTGST or IGST)** to such vendor and shall also be entitled to deduct / recover such **GST (CGST & SGST/UTGST or IGST)** along with all penalties/ interest, if any, incurred by CUGL.

13.11 Anti-profiteering clause

As per Clause 171 of GST Act, it is mandatory to pass on the benefit due to reduction in rate of tax or from input tax credit to the consumer by way of commensurate reduction in prices. The Service Provider may not do the above and quote their prices accordingly.

- 13.12 Contractor is required to take U.P. GST registration in accordance to the tender terms & conditions.

14.0 BID CURRENCY

Bidders must submit bid in Indian Rupees only.

15.0 BID VALIDITY

15.1 The bid shall remain valid for acceptance for 4 (four) months from the bid due date. Owner/Employer shall reject a bid valid for a shorter period for being non-responsive.

- a. In exceptional circumstance, prior to expiry of the original bid validity period, the Owner/Employer may request the bidders extend the period of validity for a specified additional period. The requests and the Responses thereto shall be made in writing (by fax/ post / e-mail). A bidder may refuse the request without forfeiture of its bid security. A bidder agreeing to the request will not be required or permitted to modify his bid, but will be required to extend the validity of its bid security for the period of the extension and in accordance with ITB clause in all respects.

16.0 EARNEST MONEY

- 16.1 Bids must be accompanied with '**Earnest Money / Bid Security**' in the form of '**Demand Draft**' [in favor of Central UP Gas Limited, payable at Kanpur] or '**Banker's Cheque**' or '**Bank Guarantee**' as per the format given in **Form -4 of the bidding documents**. Bidders shall ensure that 'Bid Security', having a validity of at least 'two [02] months' beyond the validity of the bid, must accompany the Bid in the format(s) made available in the Bidding Document. Bid not accompanied with 'Bid Security', or 'Bid Security' not in requisite form shall be liable for rejection. The Bid Security shall be submitted in Indian Rupees only.

| | |
|---------------------|--|
| Beneficiary | Central UP Gas Limited |
| Bank name & Branch | Union Bank of India Lakhanpur, Kanpur |
| IFSC Code | UBIN0563081 |
| Current Account No. | 455201011012003 |

Bidders can also submit MSME certificate for MSEs (Micro & Small Enterprises) for exemption from submission of EMD in accordance with the MSME act. This exemption is not extended to the traders/dealers/Distributors/stockiest /wholesalers.

In case Bidders registered with NSIC or District Industries Center (DIC) as small/Micro Category Enterprises are exempted from submission of EMD. The above exemption is not extended to the traders/dealers/Distributors/stockiest /wholesalers.

The documentary evidence/certificate in support of being registered with NSIC/DIC submitted by the bidder shall be duly certified by the statutory auditor of the bidder or a practicing Chartered Accountant (not being an employee or a director or not having any interest in the bidder's company/firm). The certificate should not older than 3 months from the bid due date and should indicate the Name of bidder, NSIC/DIC registration Number, Category of Enterprises, CA firm name, CA name and CA membership Number who is issuing the certificate.

- 16.2 The 'Bid Security' is required to protect CUGL against the risk of Bidder's conduct, which would warrant the 'Bid Security's' forfeiture, pursuant to provision of ITB.
- 16.3 CUGL shall not be liable to pay any Bank charges, commission or interest etc. on the amount of 'Bid Security'. In case 'Bid Security' is in the form of a 'Bank Guarantee', the same shall be from any Indian scheduled Bank or a branch of an International Bank situated in India and registered with 'Reserve Bank of India' as Scheduled Foreign Bank. However, in case of 'Bank Guarantee' from Banks other than the Nationalized Indian Banks, the Bank must be commercial Bank having net worth in excess of Rs. 100 Crores [Rupees One Hundred Crores] and a declaration to this effect should be made by such commercial Bank either in the 'Bank Guarantee' itself or separately on its letterhead. 'Earnest Money / Bid Security' shall be valid for 'two [02] months' beyond the 'Bid Validity Period'
- 16.4 Any Bid not secured in accordance with "ITB Clause 16.1 & 16.3" may be rejected by CUGL as non-responsive.
- 16.5 Unsuccessful Bidder's 'Earnest Money / Bid Security' will be discharged/ returned as promptly as possible, but not later than 'thirty [30] days' after finalization of tender.
- 16.6 The successful Bidder's 'Bid Security' will be discharged upon the Bidder's acknowledging the 'Award' and signing the 'Agreement' and furnishing the 'Contract Performance Security / Security Deposit' as per the provisions of tender document.
- 16.7 Notwithstanding anything contained herein, the 'Bid Security' may also be forfeited in any of the following cases:
 - (a) If a Bidder withdraws his Bid during the 'Period of Bid Validity'
 - (b) If a Bidder has indulged in corrupt/fraudulent /collusive/coercive practice
 - (c) If the Bidder modifies bids during the period of bid validity (after submission date).
 - (d) Violates any other condition, mentioned elsewhere in the tender document, which may lead to forfeiture of EMD.
 - (e) In the case of a successful Bidder, if the Bidder fails to:

- (i) to acknowledge receipt the "Notification of Award" / "Letter of Intent [FOI]/ Work Order [WO]",
- (ii) to furnish "Contract Performance Security / Security Deposit"
- (iii) to accept 'arithmetical corrections' as per provision of ITB.

16.8 Bid Security should be in favor of Central UP Gas Limited and addressed to CUGL. In case Bid Security is in the form of 'Bank Guarantee' or 'Letter of Credit', the same must indicate the Bid Document No. and the Work for which the Bidder is quoting. This is essential to have proper correlation at a later date. The 'Bid Security' should be in the form provided in tender document.

17.0 PRE-BID MEETING

17.1 As per IFB.

18.0 FORMAT AND SIGNING OF BID

18.1 The bidder shall prepare one original of the document comprising the bid as per clause 11 of ITB marked "original" in addition, the bidder shall submit 1 copy of the bid clearly marked as "Copy". In the event of any discrepancy between the original and the copy, the original will govern.

18.2 The original and all copies of the bid shall be typed or written in indelible ink (in the case of copies, photocopies are also acceptable) and shall be signed by the person or persons duly authorized to sign on behalf of the bidder.

18.3 The name and position held by each person signing must be typed or printed below the signature. All pages of the bid except any catalogues/literatures shall be signed and sealed by the person or persons signing the bid.

18.4 The bid shall contain no alterations, omissions or additions, unless the person or persons signing the bid initial such corrections.

19 ZERO DEVIATION AND REJECTION CRITERIA

19.1 ZERO DEVIATION: Deviation to terms and conditions of "Bidding Documents" may lead to rejection of bid. CUGL will accept bids based on terms & conditions of "Bidding Documents" only. Bidder may note CUGL will determine the substantial responsiveness of each bid to the Bidding Documents pursuant to provision contained in clause 30 of ITB. For purpose of this, a substantially responsive bid is one which conforms to all terms and conditions of the Bidding Documents without deviations or reservations. CUGL's determination of a bid's responsiveness is based on the content of the bid itself without recourse to extrinsic evidence. CUGL reserves the right to raise technical and/or commercial query(s), if

required, may be raised on the bidder(s). The response(s) to the same shall be in writing, and no change in the price(s) or substance of the bids shall be sought, offered or permitted. The substance of the bid includes but not limited to prices, completion, scope, technical specifications, etc. Bidders are requested to not to take any deviation/exception to the terms and conditions laid down in this "Tender Documents", and submit all requisite documents as mentioned in this "Tender Documents", failing which their offer will be liable for rejection. If a bidder does not reply to the queries in the permitted time frame then its bid shall be evaluated based on the documents available in the bid.

19.2 REJECTION CRITERIA: Notwithstanding the above, deviation to the following clauses of Tender document shall lead to summarily rejection of Bid:

- (a) BEC
- (b) Scope of work
- (c) Firm Price
- (d) Earnest Money Deposit / Bid Security (exempted for SME enterprises as clause no. 16.1)
- (e) Specifications & Scope of Work
- (f) Schedule of Rates / Price Schedule / Price Basis
- (g) Duration / Period of Contract/ Completion schedule
- (h) Period of Validity of Bid
- (i) Price Reduction Schedule
- (j) Contract Performance Bank Guarantee / Security Deposit
- (k) Guarantee / Defect Liability Period
- (l) Arbitration / Resolution of Dispute/Jurisdiction of Court
- (m) Force Majeure & Applicable Laws
- (n) Not submitting an undertaking that the bidder is not Holiday/ Blacklisted by CUGL or any other Govt. Dept./PSUs.
- (o) Any other condition specifically mentioned in the tender document elsewhere that non-compliance of the clause lead to rejection of bid

Note: Further, it is once again reminded not to mention any condition in the Bid which is contradictory to the terms and conditions of Tender document.

D. SUBMISSION OF BIDS

22.0 Submission of bid Through Online

22.1 WEB PORTAL FOR Bid Submission online <https://etenders.gov.in> For More information please visit our Website and find the attached General Instruction for online bid submission.

Bid must be submitted through e-tender mode in the manner specified in Tender Document.

No Manual/ Hard Copy (Original) Bid shall be acceptable.

23.0 DEADLINE FOR SUBMISSION OF BID

23.1 The Bid must be submitted at the address as specified in clause 22.6 above not later than the time and date as specified in Section-I, IFB.

23.2 The Employer may, in exceptional circumstances and at its discretion,, on giving reasonable notice by fax or any written communication to all prospective bidders who have been issued the bidding document, extend the deadline for the submission of bids. In which case all rights and obligations of the Employer and bidders, previously subject to the original deadline will thereafter be subject to deadline as extended.

23.4 In case any bid is submitted by bidder who is on Holiday' by CUGL or banned/blacklisted by Government department/ Public Sector on due date of submission of bid, such bid will not be opened /evaluated and such bids shall be returned to the party immediately

23.5 In case of the days specified in IFB happens to be a holiday in CUGL, the next working day shall be implied.

24.0 LATE BIDS

24.1 Any Bid received after the Bid Due Date & Time of tenders will be treated as late bids. However, e-tendering system of CUGL shall close immediately after the Due Date & Time of Bid submission and no bids can be submitted thereafter.

In case the EMD /physical documents have been received but the Bid is not submitted by the bidder or submitted incomplete in the e-tender Portal within the stipulated time, such EMD/ bid security shall be returned and such bid shall not be considered.

24.2 EMD /physical documents received to address other than one specifically stipulated in the Tender Document will not be considered for evaluation/opening/award if not received to the specified destination within stipulated date & time.

25.0 MODIFICATION AND WITHDRAWL OF BIDS

25.1 The bidder may modify or withdraw its bid after the bid submission, but, before the due date of submission provided that written notice of the modification, including substitution or Withdrawal of the bid, is received by the Employer prior to the deadline prescribed for submission of bids.

25.2 The bidder's modification or withdrawal note shall be prepared, sealed, marked and delivered in accordance with the provisions of clause 22 of ITB with the outer envelopes additionally marked "modification" or withdrawal as appropriate. A withdrawal notice may also be sent by fax /post, but followed by signed confirmation copy, post marked not later than the deadline for submission of bids.

25.3 No bid shall be modified/withdrawn after the deadline for submission of bid.

25.4 No bid shall be allowed to be withdrawn/modified in the interval between the deadline for submission of bids and the expiration of the period of bid validity specified by the bidder on the bid form, Withdrawal/ modification of a bid during this interval shall result in the bidders forfeiture of its bid security, pursuant to clause 15 of ITB.

25.5 The latest bid hence submitted shall be considered for evaluation and all other bids shall be considered unconditionally withdrawn.

26.0 OWNER/EMPLOYER'S RIGHT TO ACCEPT ANY BID AND TO REJECT ANY OR ALL BIDS

The Owner/Employer reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to award of the contract without thereby incurring any liability to the affected bidder or bidder or any obligations to inform the affected bidder or bidders of the ground for Owner/Employer action.

D. BID OPENING AND EVALUATION

27.0 BID OPENING

27.1 Unpriced Bid Opening :

CUGL will open bids, in the presence of bidders' designated representatives who choose to attend, at date, time and location stipulated in the tender document. The bidders'

representatives, who are present shall sign a bid opening register evidencing their attendance.

27.2 Priced Bid Opening:

CUGL will open the price bids of those bidders who meet the qualification requirement and whose bids is determined to be technically and commercially responsive. Bidders selected for opening of their price bids shall be informed about the date of price bid opening. Bidders may depute their authorized representative to attend the bid opening. The bidders' representatives, who are present shall sign a register evidencing their attendance and may be required to be present on a short notice.

27.3 The price bids of those bidders who were not found to be techno-commercially responsive shall be unopened and returned unopened after opening of the price bids of techno-commercially responsive bidders.

28.0 PROCESS TO BE CONFIDENTIAL

28.1 Information relating to the examination, clarifications, evaluation and comparison of bids, and recommendations for the award of a Contract, shall not be disclosed to bidders or any other person officially concerned with such Process.

28.2 Any efforts by a bidder to influence the Owner/Employer in any manner in respect of Preparation of Bidding document & further evaluation of bids will result in the rejection of that bid.

29.0 CONTACTING THE OWNER/EMPLOYER

29.1 From the time of the bid opening to the time of the Contract award, if any bidder wishes to contact the Owner/Employer for any matter relating to the bid, it should do so in writing. Any effort by a bidder to influence the Owner/Employer in any manner in respect of bid evaluation or award will result in the rejection of that bid.

30.0 EXAMINATION OF BIDS AND DETERMINATION OF RESPONSIVENESS

30.1 The owner's determination of a bid's responsiveness is based on the content of the bid only. Prior to the detailed evaluation of Bids, the Employer will determine whether each Bid:-

- (a) Meets the "Bid Evaluation Criteria" of the Bidding Documents;
- (b) Has been properly signed;

- (c) Is accompanied by the required 'Earnest Money / Bid Security';
- (d) Is substantially responsive to the requirements of the Bidding Documents; and
- (e) Provides any clarification and/or substantiation that the Employer may require to determine responsiveness pursuant to "ITB: Clause-28.2"

30.2 A substantially responsive Bid is one which conforms to all the terms, conditions and specifications of the Bidding Documents without material deviations or reservations or omissions for this purpose employer defines the foregoing terms below:-

- a) "Deviation" is departure from the requirement specified in the tender documents.
- b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirement in the tender documents.
- c) "Omission" is the failure to submit part or all of the information or documentation required in the tender document.

30.3 A material deviation, reservation or omission is one that,

- a) If accepted would,
 - i) Affect in any substantial way the scope, quality, or performance of the job as specified in tender documents.
 - ii) Limit, in any substantial way, inconsistent with the Tender Document, the Employer's rights or the tenderer's obligations under the proposed Contract.
- b) If rectified, would unfairly affect the competitive position of other bidders presenting substantially responsive bids.

30.4 The employer shall examine all aspects of the bid to confirm that all requirements have been met without any material deviation reservation or omission.

30.5 If a Bid is not substantially responsive, it may be rejected by the Employer and may not subsequently be made responsive by correction or withdrawal of the of material deviation, reservation or omission.

30.6 CUGL reserves the right to seek any clarification from the bidder, if required on the submitted document for evaluating their bid, the same shall be asked.

31.0 PRICE BID OPENING

The Owner/Employer will open priced bids of all techno-commercially acceptable bidders.

32.0 ARITHMETIC CORRECTIONS & CORRECTION OF ERRORS

32.1 Bids determined to be substantially responsive will be checked by the Employer for any arithmetic errors. Errors will be corrected by the Employer as follows:

- (i) When there is a difference between the rates in figures and words, the rate which corresponds to the amount worked out by the contractor (by multiplying the quantity and rate) shall be taken as correct.
- (ii) When the rate quoted by the contractor in figures and words tallies but the amount is incorrect, the rate quoted by the contractor shall be taken as correct and not the amount and the amount corrected.
- (iii) When it is not possible to ascertain the correct rate, in the manner prescribed above, the rate as quoted in words shall be adopted and the amount worked out, for comparison purposes

32.2 The amount stated in the bid will be adjusted by the Employer in accordance with the above procedure for the correction of errors. If the bidder does not accept the corrected amount of bid, its bid will be rejected, and the bid security shall be forfeited.

33.0 CONVERSION TO SINGLE CURRENCY

All bids to submitted in INR.

34.0 EVALUATION AND COMPARISON OF BIDS

34.1 The evaluation & comparisons of the bids will be carried out for previously determined as substantially responsive pursuant to ITB Cl. No.28.

34.2 The evaluation & Comparison of all the responsive bids for supplies/works/services to be arrived at the lowest evaluated offer as Under (i) the evaluated price of bidders shall include the following:

- I. Total price quoted by the bidder (including Taxes & duties).
- II. Technical loading if any as per Technical specification.

34.2.1 In case more than one bidder is tied up at one position based on evaluated price, then lowest cost bidder shall be shortlisted using following tie breaker criteria in the order of sequence (i.e. criteria no. 2 will be applied only in case there is still a tie after criteria no.1):

Criteria No. 1 - The bidders who have got the higher average turnover in any of the last 03 (three) Financial Year.

Criteria No. 2- The bidders who have got the higher working capital (without taking into consideration of letter of credit submitted from bank) in the last Financial Year.

34.4 In case it is observed that any bidder has not quoted for any item in the Schedule of Rates (such unquoted item not being in large numbers), the quoted price for the purpose of evaluation shall be considered as the maximum rate quoted by the remaining bidders for such items. If after evaluation, such bidder is found to be the lowest evaluated bidder, the rates for the missing item shall be considered as included in quoted bid price. If the estimated price impact of the unquoted items is more than 10% of the bidder's quoted price, the above provision shall not be applicable and such bid shall be rejected

35.0 POST QUALIFICATION

35.1 In the absence of prequalification, the Owner/Employer will determine to its satisfaction whether the bidder selected as having submitted the lowest evaluated, responsive bid is qualified to satisfactorily perform the contract.

35.2 The determination will take into account the bidders financial, technical and production capabilities. It will be based upon an examination of the documentary evidence of the bidders qualifications submitted by the Bidder, pursuant to ITB Clause-10, as well as such other information as the Owner/Employer deems necessary and appropriate.

An affirmative determination will be a prerequisite for award of the contract to the bidder. A Negative determination will result in rejection of the bidders bid.

F - AWARD OF CONTRACT

36.0 AWARD

36.1 The Owner/Employer will award the contract to the successful bidder (s) whose bid has been determined to be Substantially responsive and/or have been determined as a lowest on least cost to Owner/Employer and is determined to be qualified to satisfactorily perform the Contract.

37.0 NOTIFICATION OF AWARD/LETTER OF INTENT

- 37.1 Prior to the expiration of period of bid validity, Owner/Employer (CUGL) will notify the successful bidder in writing by Post/Fax/E-mail to be confirmed in writing, that his bid has been accepted. The notification of award/Letter of Intent will constitute the formation of the Contract.
- 37.2 The Completion period shall commence from the date of notification of award/Letter of Intent (LOI).
- 37.3 The notification of award will constitute the formation of a Contract.
- 37.4 Upon the successful bidder's/ Contractor's CPBG/SD shall promptly discharge his EMD.

38.0 SIGNING OF AGREEMENT

- 38.1 After the successful bidder has been notified for acceptance of his bid, the bidder is required to execute the Contract Agreement within 21 days of receipt of Letter of Intent in the form provided in the Bidding Documents. The Contract Agreement is to be executed on the non-judicial paper of appropriate value (the cost of stamp paper shall be borne by the Contractor/Service Provider).
- 38.2 In the event of failure on the part of the successful bidder to sign the AGREEMENT within the above stipulated period, the Bid Security shall be forfeited and the acceptance of the award shall be considered as cancelled.

39.0 PERFORMANCE GUARANTEE

- 39.1 Pursuant to clause no. 29 of GCC- works, bidder will provide performance Guarantee of appropriate value within 21 days of receipt of Letter of Intent (LOI) from the Owner/Employer. The Performance Guarantee shall be in form of Bank Guarantee and shall be in the currency of the Contract.
- 39.2 Failure of the successful bidder to comply with the requirement of this clause shall constitute a breach of contract, cause for annulment of the award, forfeiture of the bid security and any such remedy the Employer may take under the Contract pursuant to Clause as per tender. Owner also reserves the right to debar the bidder in participating in the tenders for similar work for one year.

40.0 CONTRACT EXTENSION

- 40.1 The contract may be extended upto 6 months on same Prices and discounts, if any and other terms & conditions upon satisfactory performance.

41.0 CORRUPT AND FRAUDULENT PRACTICES

41.1 The Owner/Employer requires that Bidders/contractors observe the highest standard of ethics during the execution of Contract. In pursuance of this policy, the Employer defines, for the purposes of this provision, the terms set forth below as follows:

a) "Corrupt Practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of public official in contract execution, and

b) "Fraudulent Practice" means a misrepresentation of facts in order to secure the contract or influence the execution of a Contract to the detriment of the Employer, and includes collusive practice among bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the Employer of the benefits of free and open competition; The

Employer will reject a proposal for award if it determines that the bidder recommended for award has engaged corrupt or fraudulent practices in competing for the Contract in question.

41.2 The Owner/Employer will declare a firm ineligible for a period pursuant to clause as per tender.

10. Any failure on part of the COMPANY at any time to enforce the strict observance of the performance of any of the terms and conditions of this CONTRACT or non-exercise of any right mentioned in the contract shall not constitute a waivers of such terms, conditions or rights and shall not affect or deprive the COMPANY to exercise the same at any later date.
11. CONTRACTOR shall from time to time during the progress of the service issue such further instructions as shall be necessary for the purpose of proper and adequate execution of the services.
12. The contractor shall remove or replace any workman whom the company considers incompetent or unsuitable.
13. CUGL reserves the right to alter the scope of work in quantum as per the urgency of work. The contractor shall accordingly provide services as may be required by

contract coordinator on giving a notice of two days

14. CONTRACTOR shall exclusively be liable for non-compliance of the provisions of any acts, laws rules and regulations having execution, bearing over engagement of workers directly or indirectly for execution of work and the CONTRACTOR hereby undertakes to indemnify CENTRAL UP Gas Limited against all actions, suits, proceedings, claims, losses, damages etc. which may be arise under Minimum Wages Act Industrial Dispute Act, Family pension and Deposit Linked Insurance scheme or any other Act or statutes not herein specifically mentioned but having direct or indirect application for the persons engaged by the CONTRACTOR under this CONTRACT.
15. Company shall not be liable for or in respect of any damages or compensation for any injuries or for any occupational diseases to any persons engaged by the CONTRACTOR and the CONTRACTOR shall keep the company indemnified thereof.
16. The contractor shall be liable for making good all damages / losses arising out of theft, breakage, pilferage of any office furniture, equipments, fittings and fixtures whatsoever it may be caused directly or indirectly.
17. The CONTRACTOR/his employees/agents/representatives shall not communicate or use in advertising, publicity, sales releases or in any other medium, photographs, or other reproduction of the work under this CONTRACT or descriptions of the site dimensions, quantity, quality or other information, concerning the work unless prior written permission has been obtained from the OWNER.
18. **RIGHT OF OWNER TO ACCEPT OR REJECT TENDER:-**

The right to accept the tender will rest with the OWNER. The OWNER, however, does not bind himself to accept the lowest tender, and reserves to itself the authority to reject any or all the tenders received without assigning any reason whatsoever. The whole work may be split up between more than one CONTRACTORS or accept in part (not entirely) if considered expedient. Quoted rates should hold good for such eventualities. Tenders in which any of the particulars and prescribed information are missing or are incomplete in any respect and/or the prescribed conditions are not fulfilled are liable to be rejected. The Tender containing uncalled for remarks or any additional conditions are liable to be rejected. Canvassing in connection with tenders is strictly prohibited and tenders submitted by the Tenderers who resort to canvassing will be liable to rejection.
19. **TENDERER'S RESPONSIBILITY:-**

The intending tenderers shall be deemed to have visited the SITE and familiarised themselves thoroughly with the site conditions before submitting the tender. Non-familiarity with the site conditions will not be considered a reason either for extra claims or for not carrying out the works in strict conformity with the DRAWINGS and SPECIFICATIONS.

20. SIGNING OF THE CONTRACT:-

The successful tenderer shall be required to execute an AGREEMENT in the proforma attached with Tender Document within 21 days of the receipt by him of the LETTER OF INTENT OR WORK ORDER whichever is earlier.

21. NOTE TO SCHEDULE OF RATES:-

The Schedule of Rates should be read in conjunction with all the other sections of the tender. The tenderer shall be deemed to have studied the DRAWINGS, SPECIFICATIONS and details of WORK to be done within TIME SCHEDULE and to have acquainted himself of the conditions prevailing at site.

Rates must be filled in the schedule of Rates of original Tender Documents. If quoted in separate typed sheets, no variation in item description or specification shall be accepted. Any exceptions taken by the tenderer to the schedule of Rates shall be brought out in the terms and conditions of offer.

The quantities shown against the various items are only approximate. Any increase or decrease in the quantities shall not form the basis of alteration of the rates quoted and accepted.

The OWNER reserves the right to interpolate the rates for such items of work falling between similar items or lower and higher magnitude.

22. POLICY FOR TENDERS UNDER CONSIDERATION:-

Only those Tenders which are complete in all respects and are strictly in accordance with the Terms and conditions and Technical Specifications of Tender Document, shall be considered for evaluation. Such Tenders shall be deemed to be under consideration immediately after opening of Tender and until such time an official intimation of acceptance/rejection of Tender is made by CUGL to the Tenderer.

CUGL if necessary, will obtain clarifications on the Tender by requesting for such information/clarifications from any or all Tenderers either in writing or through personal contact, as may be necessary, and the Tenderers are advised

to refrain from contacting by any means CUGL and/or their employee(s)/representative(s) on their own, on matters related to Tenders under consideration. Tenderers will not be permitted to change the substance of the Tenders after opening of Tenders.

23. CONTRACTOR TO INDEMNIFY THE CUGL:

The contractor shall indemnify the CUGL against all actions, proceedings claims, demands, costs and expenses which may be made against the CUGL or government for or in respect of or arising out of any failure by the contractor in the performance of his obligation under the contract document. CUGL shall not be liable for or in respect of any demands or compensation payable under any law in respect of any consequence of any accident or injury to any workmen or other person in the contractor shall indemnify and keep indemnified CUGL against all such damages and compensation & against all claims, demands proceedings, costs, charges and expenses whatsoever in respect thereof or in relation thereto.

24. Following documents form the part of this contract.

- a. Instructions to bidders,
- b. Bid qualification criteria,
- c. General conditions of contract.
- d. Special conditions of contract and
- e. Schedule of work / rates.

In case of doubt or dispute as to the interpretation of any clause contained, the decision of the company shall be final and binding on the contractor.

25. FORCE MAJURE:

If at any time during the currency of the contract the performance in whole or part by either party, or any obligation under this contract shall be prevented or delayed by reason of any hostility, act of public enemy, civil commotion, sabotage, fire floods, explosions, epidemics, quarantine, strikes, lookouts or acts of God (hereinafter referred to as events) then provided notice of the happening of any such events is given by either party to the other forthwith by not exceeding four hours from time of occurrence thereof, neither party shall by reason of any such event be entitled to have claim for charges / compensation / damages against the other in respect of such non-performance and / or delay in performance during such period.

26. LABOUR LAWS :

- a) No labour below the age of 18(eighteen) years shall be employed on the WORK.
- b) The CONTRACTOR shall not pay less than what is provided under law to labourers engaged by him on the WORK.
- c) The CONTRACTOR shall at his expense comply with all labour laws and keep the OWNER indemnified in respect thereof.
- d) The CONTRACTOR shall pay equal wages for men and women in accordance with applicable labour laws.
- e) If the CONTRACTOR is covered under the Contract labour (Regulation and Abolition) Act, he shall obtain a license from licensing authority (i.e. office of the labour commissioner) by payment of necessary prescribed fee and the deposit, if any, before starting the WORK under the CONTRACTOR. Such fee/deposit shall be borne by the CONTRACTOR.
- f) The CONTRACTOR shall employ labour in sufficient numbers either to maintain the required rate of progress and of quality to ensure workmanship of the degree specified in the CONTRACT and to the satisfaction of the PROJECT LEADER.
- g) The CONTRACTOR shall furnish to the PROJECT LEADER the distribution return of the number and description, by trades of the work people employed on the works. The CONTRACTOR shall also submit on the 4th and 19th of every month to the PROJECT LEADER a true statement showing in respect of the second half of the proceeding month and the first half of the current month (1) the accidents that occurred during the said fortnight showing the circumstances under which they happened and the extent of damage and injury caused by them and (2) the number of female workers who have been allowed Maternity Benefit as provided in the Maternity Benefit Act 1961 or Rules made there under and the amount paid to them.
- h) The CONTRACTOR shall comply with the provisions of the payment of wages Act 1986, Minimum Wages Act 1948, Employers liability Act 1935, workmen's Compensation Act 1923, Industrial Disputes Act 1947, the Maternity Benefit Act 1961 and Contract Labour Regulation and Abolition Act 1970, Employment of Children Act 1938 or any modifications thereof or any other law relating thereto and rules made there under from time to time.
- i) The PROJECT LEADER shall on a report having been made by an Inspecting officer as defined in Contract Labour (Regulation and Abolition) Act 1970 have the power to deduct from the money due to the CONTRACTOR any sum required or estimated to be required for making good the loss suffered by a

Worker or Workers by reason of non-fulfilment of the Conditions of the Contract for the benefit of workers, non-payment of wages or of deductions made from his or their wages which are not justified by the terms of the Contract or non-observance of the said regulations.

- j) The CONTRACTOR shall indemnify the OWNER against any payments to be made under and for the observance of the provisions of the aforesaid Acts without prejudice to his right to obtain indemnity from his SUB-CONTRACTOR. In the event of the CONTRACTOR committing a default or breach of any of the provisions of the aforesaid Acts as amended from time to time, of furnishing any information or submitting or filling and Form/Register/Slip under the provisions of these Acts which is materially incorrect then on the report of the inspecting Officers, the CONTRACTOR shall without prejudice to any other liability pay to the OWNER a sum not exceeding Rs.50.00 as Liquidated Damages for every default, breach or furnishing, making, submitting, filling materially incorrect statement as may be fixed by the PROJECT LEADER and in the event of the CONTRACTOR'S default continuing in this respect, the Liquidated Damages may be enhanced to Rs.50.00 per day for each day of default subject to a maximum of one percent of the estimated cost of the WORKS put to tender. The PROJECT LEADER shall deduct such amount from bills or Security Deposit of the CONTRACTOR and credit the same to the Welfare Fund constituted under these acts. The decision of the PROJECT LEADER in this respect shall be final and binding.

27. ARBITRATION:

All disputes, differences, or claims arising out of or in connection with this contract, including its existence, validity, interpretation, performance, breach, or termination, shall be referred to and finally resolved by arbitration in accordance with the provisions of the Arbitration and Conciliation Act, 1996, and any amendments thereto.

The arbitration shall be conducted by a sole arbitrator mutually appointed by the parties. If the parties are unable to agree on a sole arbitrator within 30 days from the date a dispute has arisen, the arbitrator shall be appointed in accordance with the procedure prescribed under Section 11 of the Arbitration and Conciliation Act, 1996, by the Hon'ble High Court having jurisdiction.

The arbitrator shall be independent and impartial and shall not have any interest, direct or indirect, in either party or the outcome of the arbitration. The arbitration proceedings shall be conducted in English and the venue shall be Kanpur Nagar unless otherwise agreed.

The decision of the arbitrator shall be final and binding on both parties. Subject

to the above, the courts at Kanpur Nagar shall have exclusive jurisdiction..

28. EARNEST MONEY DEPOSIT – as per ITB

The tenderer must pay Earnest Money as given in the letter/notice inviting tenders and attach the official receipt with the tender failing which the tender is liable to be rejected and representatives of such tenderers will not be allowed to attend the tender opening, Earnest Money can be paid in Demand Drafts, or Bank Guarantee of State Bank of India or any Nationalised Bank in favour of CENTRAL U.P. GAS LIMITED.

NOTE: The Bank Guarantee so furnished by the tenderer shall be in the proforma prescribed by the OWNER (as at Appendix – EMD). No interest shall be paid by the OWNER on the Earnest Money deposited by the tenderer. The Bank Guarantee furnished in lieu of Earnest Money shall be kept valid for a period of “three months / 90 days from bid due date”. (BG from cooperative banks shall not be accepted). The EMD shall be forfeited in the event of the bidder withdrawing his offer.

The Earnest Money deposited by successful tenderer will be retained towards the security deposit for the fulfilment of the CONTRACT, but shall be forfeited if the tenderer fails to deposit the requisite Security deposit as per clause 22 of General Terms of contract hereof and /or fails to start work within a period of 15 days or fails to execute the AGREEMENT (As per Appendix- proforma of Agreement) within 10 days of the receipt by him of the Notification of Acceptance of Tender.

The Earnest Money of the unsuccessful tenderers will be refunded by CUGL directly to the tenderers within a reasonable period of time. Correspondence in this regard may be addressed to CUGL directly by the TENDERERS.

- 29. Security Deposit:** Vendor shall submit PBG of 10% of total order value of contract (basic value) with the validity of 90 days beyond the contract validity. The PBG must be submitted within 21 days from the date of issuance of Letter of Intent (LOI).

The SD will not bear any interest. Any amount due to CUGL, as per contractual terms & conditions shall be deducted from SD. In case SD is not sufficient to recover the outstanding amount, then CUGL reserves the right to recover the same from any other means available to CUGL.

In case of failure to submit the SD within the stipulated time, the LOI (Letter of Intent)/ Work Order issued may be withdrawn & EMD submitted against the tender may be forfeited.

30. RIGHT OF THE OWNER TO FORFEIT SECURITY DEPOSIT:

Whenever any claim against the CONTRACTOR for the payment of a sum of money arises out or under the CONTRACT, the OWNER shall be entitled to recover such sum by appropriating in part or whole the security Deposit of the CONTRACTOR. In the event of the security being insufficient or if no security has been taken from the CONTRACTOR, then the balance or the total sum recoverable, as the case may be shall be deducted from any sum then due or which at any time thereafter may become due to the CONTRACTOR. The CONTRACTOR shall pay to the OWNER on demand any balance remaining due.

31. The contractor shall execute an agreement with CUGL within 15 days from the award of contract. However agreement shall be executed only after submission of valid Security Deposit against the contract.

64. CUGL reserves the right to terminate the contract with seven days notice without assigning any reason.

65. **Jurisdiction:**

The CONTRACT shall be governed by and constructed according to the laws in force in INDIA. The CONTRACTOR hereby submits to the jurisdiction of the Courts situated at KANPUR for the purposes of disputes, actions and proceedings arising out the CONTRACT, the courts at KANPUR only will have the jurisdiction to hear and decide such disputes, actions and proceedings.

Bidder to confirm the unconditional acceptance to the following clauses of the tender

- i) Security Deposit./Performance bank guarantee
- ii) Schedule of Rates.
- iii) Termination.
- iv) Scope of Work.
- v) Arbitration.
- vi) Period of Validity Offer.

66. In case, vendor fail to complete the work within the stipulated period, then unless such failure is due to force majeure as defined in the bid document, total contract price shall be reduced @ 0.5% per week of delay or part thereof subject to a maximum of 5% of the total contract price.
The decision of the Officer/Engineer-In-Charge in regard to applicability of PRS shall be final and binding on the Vendor.

In case of delay on the part of the Vendor the invoice shall be submitted after applicable price reduction

67.0 Limitation of Liability

Notwithstanding anything contrary contained herein the aggregate total liability of Supplier under the Agreement or otherwise shall be limited to 100% of Agreement / Order price. However, neither party shall be liable to the other party for any indirect and consequential damages, loss of profits or loss of production.

68. TERMINATION FOR OWNER'S CONVENIENCE

The OWNER, by written notice sent to the Contractor, may terminate the Agreement, in whole or in part, at any time for its convenience. The notice of termination shall specify that termination is for the OWNER's convenience, the extent to which performance of the Contractor under the Agreement is terminated, and the date upon which such termination becomes effective.

The Goods that are complete and ready for shipment/ dispatch as on the date of Contractor's receipt of notice of termination shall be accepted by the OWNER on the terms and prices mutually agreed at that time.

For the remaining Goods, the OWNER may elect:

- (a) To have any portion completed and delivered at the Agreement terms and prices and / or
- (b) To cancel the remainder and pay to the Contractor an agreed amount for partially completed Goods and Services and for materials and parts previously procured by the Contractor; and/or

To pay any reasonable and demonstrable otherwise non recoverable expenses incurred by the Contractor.

PERFORMANCE GUARANTEE No.

Dear Sir(s),

M/s. _____
having registered office at _____ (herein after called the "contractor"
which expression shall wherever the context so require include its successors and assignees)
have been awarded the work of
_____ vide LOA /FOA No.
_____ dated _____ for Central U.P. Gas Limited, Kanpur

The Contract conditions provide that the CONTRACTOR shall pay a sum of Rs.
_____ (Rupees _____) as
full Contract Performance Guarantee in the form therein mentioned. The form of payment of
Contract Performance Guarantee includes guarantee executed by Nationalized Bank,
undertaking full responsibility to indemnify CUGL, in case of default.

The said _____ has approached us and
at their request and in consideration of the premises we having our office at
_____ have agreed to give such guarantee as hereinafter
mentioned.

1. We

_____ hereby undertake to give the irrevocable & unconditional guarantee to you that if
default shall be made by M/s. _____ in
performing any of the terms and conditions of the tender or in payment of any money
payable to Central U.P. Gas Limited we shall on first demand pay without demur,
contest, protest and/ or without any recourse to the contractor to you in such manner
as you may direct the said amount of Rupees _____
only or such portion thereof not exceeding the said sum as you may require from time
to time.

2. You will have the full liberty without reference to us and without affecting this
guarantee, postpone for any time or from time to time the exercise of any of the powers

and rights conferred on you under the contract with the said _____ and to enforce or to forbear from endorsing any powers or rights or by reason of time being given to the said _____ and such postponement forbearance would not have the effect of releasing the bank from its obligation under this debt.

3. Your right to recover the said sum of Rs. _____ (Rupees _____) from us in manner aforesaid will not be affected or suspended by reason of the fact that any dispute or disputes have been raised by the said M/s. _____ and/or that any dispute or disputes are pending before any officer, tribunal or court and any demand made by you in the bank shall be conclusive and binding. The bank shall not be released of its obligations under these presents by any exercise by you of its liberty with reference to matter aforesaid or any of their or by reason or any other act of omission our commission on your part or any other indulgence shown by you or by any other matter or changed what so ever which under law would, but for this provision, have the effect of releasing the bank.
4. The guarantee herein contained shall not be determined or affected by the liquidation or winding up dissolution or changes of constitution or insolvency of the said contractor but shall in all respects and for all purposes be binding and operative until payment of all money due to you in respect of such liabilities is paid.
5. This guarantee shall be irrevocable and shall remain valid upto _____ (this date should be 90 days after the expiry of defect liability period) _____. The bank undertakes not to revoke this guarantee during its currency without your previous consent and further agrees that the guarantee. However, if for any reason, the contractor is unable to complete the work within the period stipulated in the contract and in case of extension of the date of completion resulting extension of defect liability period of the contractor fails to perform the work fully, the bank hereby agrees to further extend this guarantee at the instance of the contractor till such time as may be determined by the owner. If any further extension of this guarantee is required, the same shall be extended to such required period on receiving _____ instruction from _____ M/s. _____ (contractor) on whose behalf this guarantee is issued.
6. The Bank Guarantee's payment of an amount is payable on demand and in any case within 2 working days of the presentation of the letter of invocation of Bank

Guarantee. Any dispute arising out of or in relation to the said Bank Guarantee shall be subject to the jurisdiction of KANPUR Courts.

7. Therefore, we hereby affirm that we are guarantors and responsible to you on behalf of the Contractor up to a total amount of _____(amount of guarantees in words and figures) and we undertake to pay you, upon your first written demand declaring the Contractor to be in default under the contract and without caveat or argument, any sum or sums within the limits of (amounts of guarantee) as aforesaid, without your needing to prove or show grounds or reasons for your demand or the sum specified therein.
8. We have power to issue this guarantee in your favor under Memorandum and Articles of Association and the undersigned has full power to do under the Power of Attorney, dated _____ granted to him by the Bank.

Yours faithfully,

Bank by its Constituted Attorney

Signature of a person duly
Authorized to sign on behalf of the
Bank

INSTRUCTIONS FOR FURNISHING
"CONTRACT PERFORMANCE SECURITY / SECURITY DEPOSIT" BY "BANK
GUARANTEE"

1. The Bank Guarantee by successful Bidder(s) will be given on non-judicial stamp paper as per 'stamp duty' applicable. The non-judicial stamp paper should be in name of the issuing bank. In case of foreign bank, the said Bank Guarantee to be issued by its correspondent bank in India on requisite non-judicial stamp paper and place of Bid to be considered as Delhi.
2. The Bank Guarantee by Bidders will be given from bank as specified in Tender.
3. A letter from the issuing bank of the requisite Bank Guarantee confirming that said Bank Guarantee and all future communication relating to the Bank Guarantee shall be forwarded to Employer.
4. If a Bank Guarantee is issued by a commercial bank, then a letter to Employer and copy to Consultant (if applicable) confirming its net worth is more than Rs. 100,00,00,000.00 [Rupees One Hundred Crores] or its equivalent in foreign currency alongwith documentary evidence.

CHECK LIST

Bidders are requested to duly fill in the checklist. This checklist gives only certain important items to facilitate the bidder to make sure that the necessary data/information as called for in the bid document has been submitted by them along with their offer. This, however, does not relieve the bidder of his responsibilities to make sure that his offer is otherwise complete in all respects.

Please ensure compliance and tick (√) against following points:

| | DESCRIPTION | CHECK BOX | REFERENCE PAGE NO. OF THE BID SUBMITTED |
|-----|---|-----------|---|
| 1.0 | on each sheet of offer, original bidding document including SCC, ITB, GCC ,SOR drawings, addendum (if any) | | |
| 2.0 | Confirm that the following details have been submitted in the Un-priced part of the bid | | |
| i | Covering Letter, Letter of Submission | | |
| ii | Bid Security | | |
| iii | Signed and stamped original copy of bidding document along with drawings and addendum (if any) | | |
| iv | Power of Attorney in the name of person signing the bid. | | |
| v | Copies of documents defining constitution or legal status, place of registration and principal place of business of the company | | |
| vi | Bidders declaration that regarding, Holiday/ Banning, liquidation court receivership or similar proceedings | | |
| vii | Details and documentary proof required against qualification criteria along with complete documents establishing ownership of equipment as per SCC are enclosed | | |

| | | | |
|------|---|--|---|
| viii | Confirm submission of document alongwith techno-commercial bid as per bid requirement. | |  |
| 3.0 | Confirm that all forms duly filled in are enclosed with the bid duly signed by authorised person(s) | | |
| 4.0 | Confirm that the price part as per Price Schedule format submitted with Bidding Document. | |  |
| 7.0 | Confirm that annual reports for last three financial years & duly filled in Form 16 are enclosed in the offer for financial assessment (where financial criteria of BEC is applicable). | | |

Dear Sir,

This is to certify that M/s (name of the bidder with address) (hereinafter referred to as Customer) is an existing customer of our Bank.

The Customer has informed that they wish to bid for CUGL's RFQ/Tender no. dated for(Name of the supply/work/services/consultancy) and as per the terms of the said RFQ/Tender they have to furnish a certificate from their Bank confirming the availability of line of credit.

Accordingly M/s (name of the Bank with address) confirms availability of line of credit to M/s (name of the bidder) for at least an amount of Rs. _____

It is also confirmed that the net worth of the Bank is more than Rs. 100 Crores (or Equivalent USD) and the undersigned is authorized to issue this certificate.

Yours truly,
for (Name & address of Bank)

(Authorized signatory)
Name of the signatory :

CA CERTIFICATE FORMAT FOR MSE

TO WHOMSOEVER IT MAY CONCERN

This is to Certify that M/s ----- (Company Name) having its registered office at ----- (Address) is registered under MSMED Act 2006 . Entrepreneur Memorandum No. (Part-II) ----- dated ----- Category: -----(Whether Micro or Small).

Further verified from the Books of Accounts that the investment of the company as per last Audited Balance Sheet is as follows:

Investment in Plant and Machinery Rs. ----- (Lakhs)

The above Investment of Rs. ----- Lacs is within permissible limit of Rs. ----- Lacs for ----- (Micro or Small) Category under MSMED Act, 2006. Also, M/s ----- (Company Name) have not exceeded the monetary limit criteria mentioned in the NSIC Certificate.

The above format shall be printed on CA's letter head, filled, signed and stamped by a practicing Chartered Accountant (not being an employee or a Director or not having any interest in the bidder's company/firm) where audited accounts are not mandatory as per law. The certificate should not older than 03 months from the bid due date.

AGREEMENT

Contract agreement for the work/hiring services of.....2026 (Two Thousand Twenty Six) between M/s in the town ofhereinafter called the “CONTRACTOR (which term shall unless excluded by or repugnant to the subject or context include its successors and permitted assignees) of the one part and the CUGL hereinafter called the “Owner” (which terms shall unless excluded by or repugnant to the subject or context include its successors and assignees) of the other part.

WHEREAS

- a) The OWNER being desirous of having provided and executed certain mentioned, enumerated or referred to in the Bidding Document including Invitation for Bids, General Conditions of contract, Special conditions of Contract, Specifications, Drawing, Plans, time schedule of completion of jobs, Schedule of rates, agreed variations, other documents has called for Tender.
- b) The CONTRACTOR has inspected the SITE and surrounding s of WORK specified in the Bidding Documents and has satisfied himself by careful examination before submitting his bid as to the nature of the surface strata, soil, sub-soil and ground, the form and nature of SITE and local conditions, the quantities, nature and magnitude of the work, the availability of labor and materials necessary for the execution of WORK, the means of access to SITE, the supply of power and water there to and the accommodation he may require and has made local and independent enquiries and obtained complete information as to the matters and things referred to, or implied in the Bidding Document or having any connection therewith, and has considered the nature and extent of all probable and possible situations, delays hindrances or interferences to or with the execution and completion of WORK to be carried under contract and has examined and considered all other matters, conditions and things and probable and possible contingencies, and generally all matters incidental thereto and auxiliary thereof affecting the execution and completion of WORK and which might have influenced him in making his bid.
- c) The bidding Documents including the Invitation for Bids, General Conditions of Contract, Special Conditions of Contract, Schedule of Rates, General Obligations, Specification, drawings, Plans, Time Schedule of Completion of jobs, Letter of Acceptance of Tender and any statement of agreed variations with its enclosures copies of which are here to annexed form part of this CONTRACT thought separately set out herein and are included in the expression ‘CONTRACT’ wherever herein used.

AND WHEREAS

The OWNER accepted the Bid of CONTRACTOR for the provision and the execution of the said WORK at the rates stated in the schedule of quantities if work and finally approved by OWNER (hereinafter called the “Schedule of Rates) upon the terms and subject to the conditions of CONTRACT.

NOW THIS AGREEMENT WITNESSED & IT IS HEREBY AGREED AND DECLARED AS FOLLOWS:

- 1. In consideration of the payment to be made to CONTRACTOR for the WORK/HIRING SERVICES to be executed by him, the CONTRACTOR hereby covenants with OWNER that the CONTRACTOR shall and will duly provide, execute and complete the said WORK and shall do and perform all other acts and things in the CONTRACT, mentioned or described or which are to be implied there from or may be reasonably necessary for completion of the said WORK and at the times and in the manner and subject to the terms and conditions or stipulations mentioned in the CONTRACT.
- 2. In consideration of the due provision, execution and completion of the said WORK/HIRING SERVICES, the OWNER does hereby agree with the CONTRACTOR that the OWNER will pay to the CONTRACTOR the respective amounts for the WORK actually done by him and approved by the OWNER at the Schedule of Rates and such other sum payable to the CONTRACTOR under provision of CONTRACT, such payment to be made at such time and in such manner as provided for in the CONTRACT.

AND

- 3. In consideration of the due provision, execution and completion of the said WORK/HIRING SERVICES, the CONTRACTOR does hereby agree to pay such sums as may be due to OWNER for the services rendered by the OWNER to the CONTRACTOR, such as power supply, water supply and other as set for in the said CONTRACT and such other sums as may become payable to the OWNER towards the controlled items of consumable materials or towards loss, damage to the payments to be made at such time and in such manner as is provided in CONTRACT.

It is specifically and distinctly understood and agreed between the OWNER and the CONTRACTOR that the CONTRACTOR shall have no right, title or interest in the SITE made available by the OWNER for execution of the works or in the building, structures or work executed on the said SITE by the CONTRACTOR or in the goods, articles, materials etc. brought on the said SITE (unless the same specifically belongs to the CONTRACTOR) and the CONTRACTOR shall not have or deemed to have any lien whatsoever charge for unpaid bills will not be entitled to assume or retain possession or control of the SITE or structures and the OWNER shall have an absolute and unfettered right to take full possession of SITE and to remove the CONTRACTOR, their servants, agents and materials belonging to the CONTRACTOR and lying on the SITE.

The CONTRACTOR shall be allowed to enter upon the SITE for execution of the WORK/HIRING SERVICES only as a licensee simplicities and shall not have any claim, right, title or interest in the SITE or the structures erected thereon and the OWNER shall be entitled to terminate such license at any time without assigning any reasons.

The materials including sand, gravel, stone, loose, earth, rook etc. dug up or excavated from the said SITE shall, unless otherwise expressly agreed under this CONTRACTOR, exclusively belong to the OWNER and the CONTRACTOR shall have no right to claim over the same and such excavation and materials should be disposed off on account of the OWNER according to the Instruction in writing issued from time to time by the ENGINEER-IN-CHARGE.

In WITNESS WHEREOF the parties have executed these presents in the day and the year first above written.

SCOPE OF WORKS (SOW)

SECTION-VI

Brief Scope of Work:

The scope of work for the project of Implementing GIS based Asset Management system for CUGL's GA of Kanpur, Unnao , Bareilly and Jhansi would involve doing the following:

Part-I

- I. GCP Collection, Geo referencing, Feature Extraction & Basemap Creation.
- II. Physical Survey for Detection of steel pipeline using pipe locator (Magnetic induction based). Conduct 50 meter corridor survey along the route, over ground land features and associated facilities of pipeline (valve chambers, Route Markers, Pole markers, TLP etc.) data to be captured using DGPS/ Hand Held GPS.
- III. Mapping of MDPE pipelines where As build drawings are available in any form (PDF/Auto CAD/Soft copy/Hard Copy etc., the same shall be collected by service provider from CUGL offices at concern GA i.e. Kanpur, Bareilly & Jhansi). Either service provider can carry out the mapping at CUGL GA or from their centralized location whichever is suitable for completion of job after proper validation. In case of pipeline location validation at site , CUGL will depute its patrollers to assist the service provider.
- IV. In cases where ABDs are not available, mapping to be done through physical survey using DGPS/GPS and conducting trial pits as per requirement. Activity shall include 50 meter corridor survey (25 meter each side) along the route, over ground land features and associated facilities of pipeline (valve chambers, route markers, Pole markers etc.) data to be captured using High accuracy DGPS/ Hand Held GPS.
- V. Physical Survey using high accuracy DGPS / GPS for mapping of CGS, DRS, MRS and CNG stations, Industrial and Commercial consumer along with all installations/ equipment / meters.
- VI. Manual digitization using domestic customer data and location (to be provided by CUGL). Field survey is not required.
- VII. Manual digitization and create gas flow direction for entire gas network up to consumer using surveyed data, attribute data and As-Built Drawing (ABD).

Part-II

- I. Development and supply implementation of GIS based Utility Planning and Management System integrated with on the go mobile application (android and iOS).

- II. Development of mobile application to capture day to day changes in pipeline data.
- III. Integration of GIS data to the newly developed asset management application.
- IV. Integration of Legacy GIS data with newly developed asset management application
- V. Annual Maintenance of the web and mobile application for 05 years after go-live.
- VI. Training on developed solution and data integration.

Detailed Scope of Work – Part I

Preparation of Base Map for the “Area of Interest” AOI (25 meter either sides of Pipeline) using freeware satellite imagery.

The basic requirement for starting the asset mapping survey is to have an updated City Base Map for the “AOI”. The steps required to undertake for preparation of City Base Map will be as follows:

Step – I:

Using of Freeware Satellite Imagery

- i. Bidder can use freeware available satellite imagery of the Area of Interest (AOI).
- ii. CUGL may provide existing map/drawing if available.

Step – II:

Imagery Processing & Geo Referencing Including Collection of GCP’s “Ground Control Points” Through DGPS / Hand Held GPS Survey

1. After finalization of AOI with EIC of CUGL, bidder shall download freeware satellite images, GCPs (Ground Control Points) should be collected from the field using CORS enabled DGPS / Handheld GPS for geo-referencing of Satellite Imageries.
2. These points should ideally be spread over the entire ‘AOI’. The GCPs collected during DGPS / Hand Held GPS survey should directly be used as tie points for geo-referencing of Satellite images.
3. Ground control points shall be collected using high accuracy DGPS / Hand Held GPS devices which must connect CORS network during survey.
4. Before starting the work, Contractor shall submit detailed specifications of proposed CORS enabled DGPS / Hand Held GPS devices as well as methodology for image rectification and normalization process to be deployed in the work.
5. Approval must be taken from EIC of CUGL before manpower deployment.
6. Bidder should use CORS enabled GPS for getting the desired accuracy (Below 20 cm). The DGPS / Hand Held GPS shall have the facility for RTK (Real Time Kinematics) observations.

7. The DGPS / Hand Held GPS points collected shall be clearly visible on the satellite imagery and the contractor shall plan and submit the DGPS / Hand Held GPS point locations to CUGL for verification before going to the field to collect the data.
8. Contractor can use WGS- 1984, UTM – (With appropriate Quadrant as per location) Projection system wherever required.
9. Contractor shall fully geo-reference the imagery with the collection of accurate GCPs using precision DGPS / Hand Held GPS instrument
10. All consumables for printing, storing, and creation of backup data CD's/DVDs and alternate consumables of backing up of data are to be supplied by the Contractor.
11. Contractor shall depute an adequate number of teams and instrument to carry out survey work simultaneously.

Step – III:

Feature Extraction from Freeware Satellite Image for preparation of Base Map (For AOI):

12. Following thematic layers needs to be extracted /digitised:
 - a. Administrative boundaries (planning area, municipal, zones & wards). Each boundary needs to be marked on the satellite image.
 - b. Key visible features such as roads, rivers, railways, water bodies, important landmarks etc.
13. For the preparation of digitized base map of the 'AOI', the following information needs to be collected from the field survey:
 - a. Boundary with schedule of boundaries of related localities/ wards/ areas. Approach road, streets, lanes, by-lanes in the area.
 - b. Demarcation of existing land use such as residential, commercial including petty shops or others.
 - c. Type and length of existing roads (CC, BT, WBM and earthen) Details of sewerage manholes, with details etc.
 - d. Details of storm water drains and the pucca / kutchra drains leading to final disposal points.
 - e. Community hall, PHC/HC, primary school and other educational institutions.
 - f. However, footprints of individual buildings and houses need to be digitized/ vectorized over the final processed high resolution satellite images.

DGPS / Hand Held GPS based area survey, land base data updation and MDPE Pipeline Survey & Mapping where ABD is available:

14. CUGL may provide available ABD's to contractor in Hardcopies/ Jpeg/PDF/AUTOCAD or in any other format available with CUGL. If any conversion of formats is required same shall be in scope of contractor. Mapping to be done accordingly.

For entire pipeline sections where ABD are unavailable, the following standardized procedure must be followed for survey and mapping activities:

15. Land base / area Survey must be conducted only within the corridor of 50 meter (25 meters either sides) where pipeline is laid.
16. Final AOI for Corridor area survey shall be provided by EIC CUGL, area shall be marked in freeware satellite imagery and bidder must conduct survey on the selected/marked area only.
17. Bidder must take permission from EIC before deployment of manpower in field and EIC must check the accuracy (below 20 cm) of the DGPS/Handheld GPS instrument before conducting survey.
18. In case of bidder execute any work in unmarked/unselected area, payment shall not release for the unmarked/unselected area.
19. Land base creation within 50 meter corridor through field survey using CORS connected DGPS / Hand Held GPS as per specified accuracy and additional survey of building areas outside boundary wall / compound wall, society / building periphery.
20. MDPE Survey shall be done to capture TF positions wherever pipeline supply points exist. And collect the coordinate of pipeline, turning, crossing etc.
21. All building / apartment / society Areas to be checked for exact location of permanent hard structures, all boundaries and peripheries, fixed assets, TF points, outside building corners, gates etc. for existing pipeline.
22. As part of ground survey for all land base features, relative distance / position of one feature w.r.t other feature shall be verified / rectified through CORS Connected DGPS / Hand Held GPS at precise level as per ground reality to meet the specified relative accuracy.
23. Contractor shall attach detailed specifications of proposed CORS connected DGPS / Hand Held GPS as well as proposed methodology for achieving required land base accuracy (below 20 cm).
24. In case of, Agency is not able to identify MDPE pipeline with the help of patrolling staff then trial pit to be conducted after taking prior approval from EIC. Payment shall not be made on unapproved pits.
25. Agency must provide the location / coordinate marked on the map where pit survey to be conducted. Only after getting approval from EIC CUGL, agency is allowed to deploy resources for trial pit.
26. Authorization letter/any correspondence for pit survey may be provided by CUGL for coordination with local authorities but coordination, approval collection, statutory fees for pit survey should be part of agency's scope.
27. MDPE pipeline is laid within 2 meter depth from the ground for open trenching, specification of the trial pit should be;
 - a. Length x Width: 1.0m x 1.0m
 - b. Depth: 1m to 2.5 m
28. Site clearance, approval, permission for excavation/digging is included in agency's scope.
29. The surveyor should specify the road category whether govt. road or private road.
30. The survey should include identifications of type of buildings i.e. housing/ commercial /shopping etc. in the area under consideration along with plot boundary.

- a. Apartment No., Number of Stories and no. of houses in one storey.
 - b. Distance between House to House
 - c. Road & Back Lane width
 - d. Drain centre line/sewage lines
 - e. Name of Locality/ Colony
31. The below information to be collected by the contractor during survey with the help of patrolling staff :
- a. Pipeline coverage.
 - b. As- Built pipeline network (if available).
 - c. Type of the Pipeline (Steel / MDPE).
 - d. Thickness / Grade /Size of the Pipeline.
 - e. Above ground/Underground pipeline stretch
 - f. Depth of the pipeline
 - g. Pipeline stretch Name and distance
 - h. Location of underground installations
 - i. Bend/junction/crossing etc.
32. In MDPE Network, Contractor must plot the Geo coordinates for all the connected equipment's (such as Service Regulator, underground valves, TLP box, route marker, TF etc.) underground and over ground position in the MDPE loops and entire network using DGPS/Handheld GPS instrument accuracy (below 20 cm).
33. Each valve of the pipeline network showing clearly the network that is controlled by the subject valve. The feed area from each valve shall be filtered out when the option is selected and indicated separately.
34. Inside apartment/building, consumer survey is not included in bidder's scope.

DGPS / Hand Held GPS survey of CGS, DRS, MRS, Domestic, Industrial & Commercial Consumers and CNG stations along with all installations:

- 35. Contractor must use CORS connected DGPS / Hand Held GPS instrument for the data collection activity.
- 36. Contractor must plot Geo coordinates of all components inside the Stations. i.e. City Gate Stations (CGS), SV Station, District Regulating Station (DRS), Meter Regulating Stations (MRS), Pressure Reduction Station (PRS), Control Rooms, Isolation Valves etc.
- 37. Other facilities like City Gate Station (CGS), Mother Station (MS), CNG Stations, MCS, GGS, etc. Data should be captured during survey. Major equipment list of stations is given below,
 - a. Compressor, Dispenser, Stationery cascades
 - b. Electrical power source, DG Set, UPS, Battery Band

- c. Electrical Control Panel
 - d. Instrument Air and Water Facility
 - e. Fire frightening and safety equipment
 - f. LCV cascade mounting and mother station
 - g. Office cum control room (structural)
38. Station wise gas inflow and outflow network to be mapped.
 39. Survey and data collection of Industrial and commercial consumer, verification of consumer's existing data should be done by the contractor.
 40. Contractor must capture GPS coordinate, picture and the Geo-Tagging of Gas Meter for Industrial & Commercial customer.
 41. Tagging of consumers with respective Service Regulators/TF must be part of contractor's scope.
 42. Installation must be connected with each other and contractor must create final network with flow direction.
 43. Accuracy of the DGPS / Hand Held GPS point should be within 20 cm.
 44. For mapping domestic PNG customers, co-ordinates will be provided by CUGL. Vendor to map the same after suitable correction on map if required.

Survey of steel pipeline using Pipe Locator with 50 meter corridor along the route using DGPS/ Hand Held GPS:

45. Detection and Pipeline Alignment Survey shall be carried out by using Pipeline Locator (Magnetic induction based) for Carbon Steel Pipeline and Corridor survey using independent CORS connected DGPS / Hand Held GPS with accuracy of <20 cm.
46. Steel pipeline detection shall be done to find out the exact position, depth and its related parameters. This shall be done by using various prominent techniques like using induction utility locators/ methods for every 50 meter intervals along with corridor survey of steel pipeline. This includes survey of utility information for its ground position and related assets information by taking a fixed corridor of 25 meters width along both sides of the pipeline.
47. This shall be digitized on the map with referenced Geo co-ordinates as per the exact position, depth and turning points like Elbow/Tee (curving), junction of the pipeline. (Note: In case of pipeline could not detected using pipeline locator then instrument to be used without any extra cost by the contractor)
48. Pipeline position must be taken at every 50 meters interval of pipeline segment.
49. Pipeline position & depth should also be taken at every turning point, junctions, and at Crossings irrespective of interval.
50. The supply, carrying, use and maintenance of devices / equipment would be in contractor's Scope. Contractor must attach detailed specifications and calibration (not older than 1 year) of proposed device / equipment to meet the accuracy criteria.
51. Contractor must capture all above ground features of the steel pipeline corridor (25 meter on either side of pipeline) land base data, like; School, college, rail track, bridges, river nallah, forest boundary, building type, electric pole/tower, pond, road, other authorities etc.

52. The final corridor map must be edge matched with the respective land base data and uploaded into the CUGL's GIS system with linking of respective drawings.
53. All permissions required for field survey activities may be provided by CUGL.
54. Pipeline facilities should be captured / updated in detail as per data model suggested by the CUGL.
55. All the attributes must be based on actual survey report.
56. The exact Geo- Coordinates shall be taken with independent DGPS/GPS. This shall be digitized on the map with referenced Geo co-ordinates as per the exact position, depth and turning points like Elbow/Tee (curving) of the pipeline.
57. The pipeline zone shall be shown by contractor indicatively and details regarding size shall be given.
58. Pipe line position & depth shall also be taken at every turning point, junctions, and at Crossings irrespective of interval.
59. The contractor shall mark out positions of the pipeline on field during detection activity to retain their offsets accurately while mapping.
60. The supply, carrying, use and maintenance of devices / equipment shall be in a contractor Scope. Contractor shall attach detailed specifications and calibration (not older than 1 year) of proposed device / equipment to meet the depth accuracy criteria. Further these devices shall be used during the contract and use of alternative devices will not be preferred without permission of the Client.
61. The final corridor map shall be edge matched with the respective landbase data and uploaded into the GIS system with linking of respective drawings.
62. Pipeline facilities will be captured / updated in detail as per data model suggested by the CUGL.
63. Trial pit to be conducted where the pipeline cannot be detected by /Locator.
64. At least 2 Nos. of trial pit to be conducted within 1 km of network.
65. The bidder must obtain prior permission from the Engineer-in-Charge (EIC) of CUGL before carrying out the /Locator survey and conducting trial pits. Any work executed by the contractor without obtaining prior approval from the EIC of CUGL shall not be considered for payment.
66. After creation of digitized network of pipeline and other facilities, final GIS file should be integrated to the client's application.

Manual digitization and create gas flow direction for entire gas network up to TF and connecting consumer data provided by CUGL:

67. Contractor should deploy qualified digitizer for digitization work.
68. Gas network, installations and other facilities to be digitized on top of open source satellite imagery.
69. Contractor may take reference Gas Pipeline Network Drawings/data (AutoCAD/ sketches-NTS) available with CUGL.
70. However, contractor shall digitise/insert/plot the Gas Network data as per the surveyed data, hard/soft copy maps of as laid drawings/ sketches provided by CUGL (if available).
71. The attribute information shall be linked / joined to the spatial database after data entry. The attribute data shall be linked to the corresponding features. Attribute information must be captured during field survey.

72. Contractor shall place the line (For Gas network), point (For installations), polygon (For area demarcation) exactly as per the dimension, distance and references with the field information.
73. Mains and services that crosses map sheet edges shall not be broken on the map edge. Do not place a vertex at the point that a linear feature crosses a map edge.
74. Network assets e.g., pipe-to-pipe, pipe to plant/device/fittings etc., must be georeferenced (topologically placed) on created/updated landbase map.
75. Create Nodes for various apparatus like tees, elbows, pipe ends etc.
76. Develop/update all the attribute information about all pipeline objects and customer.
77. Create the geometric Network of all the pipeline network elements based on the connectivity rules.

List of Survey Equipment and Accuracy must be available with the bidder:

The survey team shall be equipped with the minimum following field survey Equipment's:

78. Pipeline Locator: 2 Nos.
79. CORS enabled DGPS / Hand held GPS Instrument: 8 Nos.
80. Positional Accuracy of CORS enabled DGPS / Hand Held GPS Instrument: Within 20 Cm

CUGL may ask for live demo of the DGPS/Hand held GPS instruments with desired accuracy (within 20 Cm) during evaluation process.

Deliverables:

GIS-Database Compilation

81. The GIS Database shall be compiled and submitted as per the approved data model.
82. All layers defined in the data model must be provided in Shape and Kml/Kmz file formats.

Raw GCP & Survey Data

83. The agency shall submit GCP point and all raw survey data.
84. Asset photographs must be included.

Survey Maps/Drawings

85. MAP of all 03 GAs in A0 size with GA boundary/CA Boundary and assets (as advised by EIC) to be provided in Soft/hard copy.

OGC-Compliant Shapefiles

86. All survey-related outputs shall also be submitted in Shape file format, KMZ, DWG and CSV compliant with Open Geospatial Consortium (OGC) standards.

Detailed Scope of Work - Part II

Implementation and Customization of GIS based Utility Planning and Asset Management System integrated with Mobile application

Web Application:

The application must be developed in open source technology along with open source database and application must have no restriction in terms of licensing policy and user. Application must be in perpetual mode and ownership of the source code of the application must be in the name of CUGL. Bidder must not deliver the same source code to any other client. Non-disclosure Agreement (NDA) to be signed between bidder and CUGL.

Key Modules of the application:

Dashboard:

87. The Dashboard will show the important information related to all activities at a glance. Dashboard will be available in web application and mobile application.
88. The system will also come with a one-page Dashboard which will throw instant information like length wise pipeline, Nos. Of valves, CNG Station, I&C Consumers and other facilities, Nos. of ongoing O&M activity, Nos. of inspection, incremental changes, newly added customer etc. Dashboard shall be designed in close co-ordination with EIC as per needs and requirements of CUGL.
89. Dashboard should be customizable as per CUGL's need.
90. The analysis in graphical and chart format should be automatic and depends on the data that has been entered in the system.
91. The Charts can be printed/downloaded.
92. The Data can also be in Excel/ CSV/ PDF.
93. A particular pipeline stretch, which is falling under which statutory body will be shown in this module.
94. Tagging/uploading of document features should be implemented in the application.

Web Application Features:

95. Entire network view ability on one platform to manage database.
96. Database of Legacy network to be shared by CUGL in .shp/kml format.
97. The system should be able to integrate the newly added maps/updated base map of area of interest (AOI) to the existing maps and provide seamless integrated view to the users.
98. Development of GIS based Web and integrated Mobile Applications.
99. Contractor must provide options for filtering the data on specific attributes of CUGL's requirements. Filtering options must include the following:
 - a. Pipeline by route name/stretch

- b. Pipeline passing through the area
 - c. Network size
 - d. Network Facilities like City Gate Station (CGS), Mother Station (MS), District Regulatory Station (DRS), Meter Regulatory Station (MRS), CNG Station etc.
 - e. Each valve of the Network showing clearly the network that is controlled by the subject valve. The feed area from each valve shall be filtered out when the option is selected and indicated separately.
100. Display the GIS data layer wise i.e., showing with different symbols/ colours.
101. Specific tools to be developed in web application is mentioned below,
- a. Layer visibility On / Off
 - b. Pan/Move, Zoom In, Zoom out tools.
 - c. Identity tool to find out attributes of a feature.
 - d. Measuring tools to find out distance and area measurements.
 - e. Get coordinates by clicking on the map.
 - f. Dynamic Query builder tool to see the results.
 - g. Search criteria
 - h. Buffer region
 - i. Map printing and export into PDF/JPG
 - j. Locating assets by entering latitude/longitude values
102. Displaying dia wise pipeline layers with different color code.
103. Hyper linking of existing documents such as as-built sketches, test commission reports can be attached to the pipeline/CGD assets

Map View

The application will be designed to provide comprehensive information about a pipeline network.

The system will display various details related to the pipeline coverage, as-built pipeline network, pipeline type, thickness, grade, size, and important landmarks within a buffer region of the pipeline. Additionally, it will identify residential and commercial buildings in the vicinity of the pipeline network.

It will provide an overview of the pipeline's geographical distribution and relevant attributes.

1. Pipeline Coverage Display:

The system shall display the geographical representation of the pipeline network, indicating its coverage and geographical extent.

2. Pipeline Type Identification:

The system shall identify and display the type of pipeline, whether it is made of steel or Medium-Density Polyethylene (MDPE).

3. Pipeline Attributes:

The system shall provide details about the pipeline's characteristics, including thickness, grade, and size.

4. Landmarks within Buffer Region:

The system shall identify and display important landmarks located within a buffer region of 20 meters from the pipeline network. Landmarks may include schools, fire stations, hospitals, police stations, state offices, etc.

5. Industrial, Residential and Commercial Buildings:

The system shall identify and display residential and commercial buildings present near the pipeline network.

The web application will include the following specific tools to enhance user interaction and provide comprehensive information about the pipeline network:

i. Layer Visibility On / Off:

This tool allows users to the visibility of different layers of information on the map. Users can select which layers, such as pipeline network, landmarks, buildings, etc., they want to display or hide.

ii. Pan/Move, Zoom In, Zoom Out Tools:

These basic navigation tools will enable users to pan or move the map in different directions and zoom in or out to view specific areas in more detail.

iii. Identity Tool:

The Identity tool will allow users to click on a specific feature or point on the map to retrieve its attributes or properties. For example, users can click on a pipeline segment to access information such as material type, diameter, age, etc.

iv. Measuring Tools:

The application will provide measuring tools to calculate distance and area measurements on the map. Users can draw lines or shapes to measure distances between points or calculate the area of a selected region.

v. Get Coordinates by Clicking on the Map:

This tool will allow users to obtain the latitude and longitude values of a specific location by clicking on the map.

vi. Query Builder Tool:

The Query Builder tool will enable users to define specific search criteria and filters to obtain relevant information from the database. Users can create custom queries based on attributes like pipeline material, size, proximity to landmarks, etc.

vii. Search Criteria:

Users can input search criteria such as pipeline ID, location name, landmark type, or any other relevant parameter to quickly find specific information on the map.

viii. Buffer Region:

The Buffer Region tool will enable users to create a buffer around a selected point, line, or area on the map. This feature will help identify and display landmarks and buildings within a specified distance from the pipeline network.

ix. Map Printing and Export:

Users will have the option to print the map view or export it as a PDF or JPG file for offline use or sharing with other stakeholders.

x. Locating Asset by Entering Latitude/Longitude Values:

Users can enter latitude and longitude values to locate assets or specific points on the map.

xi. Displaying Pipeline and ROW/ROU Information on open source Imagery and Maps:

The application will overlay pipeline and Right-of-Way (ROW)/Right-of-Use (ROU) information on top of maps from various sources such as Open-Street Maps. This will provide a visual representation of the pipeline network in its geographic context.

Task Creation and Field Data Approval Module:

104. Job/Task can be created from the system based on defined activity.
105. Assigning a task to a field staff should be done from the application.
106. Stretch wise information and name of patrolling staff should be stored in the system and selecting of drop down menu, the name will be appeared.
107. This module will help the admin to know the exact real time scenario of the field data, time to time updates about the pipeline data, location and O&M activity.
108. All pending inspection/ O&M activity report list with basic details will be shown in a single window.
109. User will be capable to View the photographs and data sent by field officials during inspection/O&M activity.
110. User should able to view the details of inspection data. Like Inspection date/time, location, form details and the inspection officer's name etc.
111. User should give approval or rejection and special note based on the submitted inspection/O&M data

Task Create:

The task creation form will be the starting point for adding new tasks to the system. Through this module, user can create different tasks with a unique system generated Task ID.

112. User can create a Task Name related to the subject.
113. User will be able to provide a brief description of the task to be performed or any specific details or requirements for the task.
114. User needs to enter Chainage details or relevant information about the location or position of the task.
115. User will provide the name of the location where the task was performed
116. With the help of this module, User can also type the name of Station if any.

Task List:

After tasks are created, they will be listed in a tabular view within the module. The list will include columns for the relevant information, such as Task Name/Title, Pipeline Inspector, Supervisor, Location Name, Station, Chainage, and Task Status.

117. The task list view should provide options to filter and sort tasks based on various criteria, such as assigned Pipeline Manager, Supervisor, Task Status, etc. This will help users quickly find specific tasks or prioritize their work.
118. Authorized users, such as supervisors, can assign tasks to Pipeline Inspectors directly from the task list view. They can select a task, choose the appropriate inspector from a list, and set a due date for completion.
119. In this listing page, user can search name of all Tasks by providing name of Supervisor.
120. User can also filter any Task by Location details or pipeline inspectors.
121. Clicking on a specific task in the task list view should open a detailed view of the task, showing all the input fields and additional information. This view will allow users to review the task's description, assigned inspector, supervisor, location, station, chainage, and any uploaded photos.
122. Below is the sample task list:
 - a. Meter Replacement
 - b. New Meter Installation
 - c. Route Diversion/shifting
 - d. Excavation/digging
 - e. Incremental Changes in Network
 - f. Station wise Installation

Task Assign:

This module must handle the task assignment process. Once a task is created using the form, it will be listed in the task assignment module.

123. User can select the name of pipeline supervisor who conducted the observation (Select from a list of available supervisors).
124. The pipeline supervisor will have access to this module and can review the tasks awaiting assignment.
125. They can select a task and assign it to the appropriate pipeline inspector, name of the person responsible for executing the task (Select from a list of available inspectors).
126. In this page, user can assign different types of Tasks to different pipeline inspectors.
127. User can enter start date and end date of a particular task.
128. The supervisor can also set a due date for the task's completion.
129. Once the task is assigned, the pipeline inspector will be notified through the system.
130. Once the assigning task is approved, it will be marked as "Approved" in the system.
131. By developing a task management module with the specified input fields and functionality, user can streamline task assignments, improve collaboration between team members, and maintain relevant documentation, for each task.

Task Reporting:

132. In web application, through this module user can view the all list of reporting against tasks which is entered already through Mobile Application.
133. In this page user also can view all details and descriptions of any particular Reporting against a task.
134. Whenever The assigned pipeline inspector can update the task's status as they progress by the mobile application, user will view the current status of the task (The available task status could include: 'Not Started', 'In Progress', 'On Hold', 'Completed').
135. Once the task is completed, the pipeline inspector can mark it as "Completed" (With the help of mobile application).
136. The system should send notifications to the respective pipeline inspectors and supervisors when a task is assigned, updated, or completed.
137. The supervisor can review the task and ensure it meets the required standards and expectations. If necessary, they can provide feedback or request revisions.
138. User will view all observation/findings including photographs.
139. User will view the date when the observation took place

Incident Management Module:

140. Facility/asset-wise special incident data should be visualized on a GIS map
141. History incidents can be stored in the module for further guidance to the employee
142. This module should show the incident information like leakage, equipment failure, damage by third party etc.
143. Facility to approve incident inspection data after resolution should be there in the system.

144. Incident-wise Job creation and assignment of Job to the area wise patrolling staff.

Incident Reporting:

The Incident Reporting System will be a standalone application accessible to pipeline inspectors. It will facilitate the reporting of incidents and support photo uploads for additional evidence. Supervisors will have access to review and respond to reported incidents.

145. The system shall store and manage incident data securely.
146. Incident data shall be time stamped upon submission by mobile application.
147. The system shall allow supervisors to access and review reported incidents.

Incident Listing:

148. In web application with the help of this module, user can able to view the all list of incidents which are entered already through Mobile Application.
149. In this listing page, user will search any incident with chainage details, location of the incident, Name of reporting Pipeline Inspector & name of supervisor.
150. User can also view the category of Incident, date of incident, Type of Incident and the specific observations or findings made during the inspection with photographs which are already entered by inspector through mobile application.

Incident Update:

The Incident Update Module must be an integrated part of the existing Incident Reporting System. It will enable pipeline inspectors to provide updates on reported incidents and log actions taken to address them. Supervisors will have access to review and respond to the incident updates.

151. In web application, with the help of this module user can update or edit any incident records.
152. User will update chainage details, location of the incident, Name of reporting Pipeline Inspector & name of supervisor.
153. User can add or edit any specific observations or findings made during the inspection with photographs and description of incidents.
154. User can view the date when the observation took place.
155. There should be an option to select 'Incident category' from the drop-down list. The items listed in drop down list are 'Injury to personnel', 'Damage of Equipment', 'Gas Leakage' and 'Others'. User will select any of them from drop-down list.
156. There should be another option to choose 'Type of Incident' from the drop-down list which consists of 'Major', 'Minor' and 'Near Miss'. In that case User will have to select one option from drop down menu.

157. User can enter his/her comments and suggestions regarding the incident in 'Remarks' field with what kind of action has been taken.
158. The module should store and manage incident update data securely.
159. Incident update data should be time stamped upon submission.
160. The module should allow pipeline inspectors to view photographs/images related to the incident update.

Locator Tool

161. Using the tools, a user can search or identify the location of a particular asset among all the other asset.
162. Tool should have option to search by Facility ID, Customer ID
163. After selection of asset layer and entering of the facility id, map should redirected to the location of the searched asset.

Zoom to Coordinate Tool

164. Using the tools, a user can search or identify the location of a particular asset/area.
165. Tool should have two option to search a asset/area 1. X/Y Coordinate 2. Address
166. By entering coordinate of an asset or address of an area the map window should redirected to the given location.

Buffer Tool

167. User should able to set marker on the map from where buffer zone can be set.
168. Using the tool user can have all the mapped asset details and can visualize the position on the map which are falling under the selected buffer zone.
169. User should have option to select active asset layer, target asset layer, buffer distance, buffer unit, for visualization.
170. Also a provision should be given to the user to make out a random circle of any diameter from any given point in the map to visualize the details of asset which are falling under buffer region.

Query Builder Tool

171. Simple and advanced query and search facilities with either script or SQL should be provided in this tool
172. User should have option to select feature layer and based on that user can have option to choose other asset layer to generate query.
173. User can search asset information using different query builder like; "AND", "OR" etc.
174. More option should be given in the tool basis on the requirement.

Network Tracing Management Tool

175. User should be able to trace the network using "Stream Analysis" and "Network Tracing" tool.

176. Stream analysis shall be initiated by selecting any of the facility/asset of the entire network which is logically connected.
177. Upstream or Downstream analysis should be the two option to visualize the network loop from the location of selected asset either to the source or to the last point of the network. i.e; SR/TLP's/Consumer meter based on the available GIS data and connectivity.
178. After initiation of analysis the network loop should change into a different color for better identification.
179. Network tracing tool should help the user to identify the network which is a connected network and which is a broken network.

Admin & User Management

180. The user management module should be present for complete system handling along with the permission role management of every user of the web application. The functions of this module shall be as follows:
 - i. Manage mobile users.
 - ii. Manage web users.
 - iii. Manage role and permission of the mobile users.
 - iv. Manage role and permission of the web users.
 - v. User can manage their own profile.
 - vi. Change password option for the user.

User Characteristics

There shall be different types of users interacting with the Web Application & Mobile application. There are single users or a group of users with specific roles.

Super admin should have the right to change the access of a concerned user in accordance with the roles and responsibility of the user, in line with the approval from the management.

The initial list of the users / user groups should be: (the users / user groups will be finalized as the software concludes)

i. Level 0

Level 0 especially IT of the System shall have complete authority of the system and shall be able to make any changes to the system at any point of time. They can edit any data which may be restricted to other users. Level 0 shall be responsible for User creation, Layer Viewing, Layer Edit, Task creation, All Approval and Role assignment also.

ii. Level 1

Level 1 shall be responsible for Layer Viewing, Layer Edit (only the concerned personnel), Task creation, Selected Approval and Data Entry.

iii. Level 2

Level 2 shall be responsible for Layer Viewing, Layer Edit (only the concerned personnel), Task creation and Data Entry.

iv. Level 3

Level 3 shall be responsible for Layer Viewing and Data Entry.

User Management:

The Web-Based Application shall include functionalities that allow the Admin Officer to register mobile users and assign them as field staff. The registration process shall involve collecting essential information about the mobile users, such as Name, Mobile Number, and assigning them specific roles. Here's a detailed specification:

User Registration Form:

The Admin Officer shall have access to a user registration form where they can input the following details for each mobile user:

1. Name: Full name of the user.
2. Mobile Number: Contact number of the user (to be used for communication and login purposes).
3. Validation and Error Handling:
4. The registration form should include validation checks to ensure that required fields (Name, Mobile Number) are filled, and the mobile number is in a valid format.
5. Appropriate error messages should be displayed if any required field is missing or if there are validation errors.
6. Mobile User Database:
7. The application shall maintain a database to store the registered mobile users' information, including their Name, Mobile Number.
8. User Role Assignment:
9. The Admin Officer shall have the authority to assign specific roles to the registered mobile users. In this case, the role assigned shall be "Field staff."
10. User Authentication:
11. Once registered, each mobile user shall receive login credentials (username and password) or a unique authentication token to access the application securely.
12. Edit and Delete User Profiles:
13. The Admin Officer should have the option to edit user profiles in case of any changes to Name, Mobile Number. They should also be able to delete user profiles if necessary.
14. Data Privacy and Security:

15. The application shall implement robust data security measures to protect sensitive user information, adhering to privacy regulations and best practices.
16. Push Notification to Mobile Users:
17. Upon successful assignment as field staff, mobile users should be notified about their roles and provided with necessary instructions for using the application.
18. User Listing and Search:
19. The application should offer a user listing view, where the Admin Officer can see all registered mobile users along with their assigned roles.
20. A search functionality should be available to quickly find specific mobile users based on their Name or Mobile Number.
21. Mobile User Registration Limit:
22. The Admin Officer may be able to set a limit on the number of mobile users that can be registered as field staff, depending on the organization's requirements.
23. User Activity Logging:
24. The application may log user registration and role assignment activities for auditing and tracking purposes.
25. User Registration Reports:
26. The application may include reporting features to generate reports related to user registration, showing the list of registered mobile users, their roles, and timestamps of registration.

With the help of this module Admin user can view the User List which contains the necessary information about user i.e., User id, Full Name and Contact Number. Admin User shall also add new users in the user list. This module also provides the option to change the status of user. This Module also describes the role of each user and their area of access and rights.

- i. Web user shall create, edit or delete by admin user.
- ii. Mobile user shall create, edit or delete by admin user.
- iii. Admin user shall update the user details when necessary.
- iv. Dynamic filtering of user is possible.
- v. User can update or change own profile password.

Mobile Application Basic Features:

The Mobile App will be developed as a Native App, i.e; This application has to be developed in compatibility to Android and iOS Platform. The Mobile App must run on Smartphones and tablets.

1. Mobile app should be able to run on low bandwidth (minimum on 4G)
2. There would be separate login id and password for every user to enter into the application.
3. Each Device, on which the mobile app will be used, will have to be registered (using IMEI number) with the mobile platform web component.
4. Each time the Mobile App is opened/accessed, it should check whether the device is registered or not.

5. Role based access should be given to the mobile user by the Admin.
6. Application should be capable to send data online to the web portal directly through S, i.e; Real-time connectivity to the central servers should be there.
7. Authorized user should be able to view the map of the command area/AOI, facilities and attribute details etc.

Mobile app for Inspection and O&M Data collection

1. Assigned job should be viewable from the field staff mobile application.
2. Routing to the job location from the mobile application should be performed.
3. Separate forms should be created for Inspection and O&M Data collection.
4. The field officials will be provided with android smart phones with a mobile application which will enable them to collect the latitude longitude of the place of incident and O&M activity and its attributes, based on pre-defined form.
5. Activity should be closed by field official after completing the inspection.
6. Alteration of pipeline network, new pipeline network and other facility survey and mapping should be done from the mobile application.
7. Mobile user can select the stretch within the jurisdiction and previously assigned to him/her.
8. User should capture the image only as there will be no option to upload any image from the gallery.
9. User can also capture small videos through this app and update it into the system.
10. The mobile application consists of a login and password with fingerprint authentication after that the users can login in the mobile app.
11. There should be separate login id and password for every user to enter into the application.
12. Application should have the facility to authenticate with pin code and fingerprint.
13. Application should have the facility to sync the Stations and pipeline data with the server.
14. After syncing with the stations and pipeline details with graphical view will be displayed on the dashboard.
15. Users shall have to select that particular stations and pipeline.
16. After clicking on map view page will open. In this page users can see these options i.e. current location, stations location, installed asset, pipeline connectivity map location and save button.
17. After clicking on the particular asset on map page, a form page will open where they can fill all the necessary details and can and there is a provision of taking picture of asset. Finally click on the submit button to save the data.
18. After clicking on the save button, user shall have to come again on the sync the data with server option and click on the upload button which they can upload the details in the server and view the whole details on the web application.
19. Inspection officers shall have to come within the GEO fencing region which is 50meter radius of that asset to update the attributes.
20. In the mobile app a provision to store all the O&M data in offline mode during lack of internet connection.

21. In this module, users should be able plot the new/updated facility installations related to CGS, DRS, MRS, CNG stations and pipeline data. User should be able to visualize the data on the map view page by clicking on the asset icon.
22. User should be able to capture/update data and coordinate (location) of new/ existing Customer through mobile app.

Integration and Legacy Data Migration

23. The bidder shall make provision for integration with the existing SAP HANA system/SCADA of CUGL.
24. The contractor shall be fully responsible for the end-to-end migration of legacy data into the newly developed application.
25. CUGL shall provide existing data in GIS-compatible formats (e.g., .shp, .kml). The contractor shall ensure accurate data transformation, validation, de-duplication (if required), and successful ingestion into the target system.

Detail of infrastructure of CUGL (Legacy data migration & new infrastructure) is as under:

(Kanpur, Bareilly, Unnao & Jhansi):

| Sr. no. | Asset | UOM | Total Asset as on date | Total Asset Mapped in GIS | Balance asset required to be mapped in GIS |
|----------------|----------------------|------------|-------------------------------|----------------------------------|---|
| 1 | Steel Pipeline | Km | 205.85 | 107.16 | 98.69 |
| 2 | MDPE Pipeline | Km | 3414 | 11.7 | 3402.3 |
| 3 | CNG Stations | Nos. | 93 | 20 | 73 |
| 4 | Industrial Consumers | Nos. | 157 | 49 | 108 |
| 5 | Commercial Consumers | Nos. | 660 | 234 | 426 |
| 6 | Domestic Consumers | Nos. | 1,50,000 | 20,000 | 1,30,000 |

Training & Support

Training:

The aim of this project is to give stakeholders the capacity and knowledge to guide all aspects of the application in future. Therefore, the training elements of this project are a vital aspect.

General approach to training:

1. In all cases the relevant key experts and supporting experts should develop the training materials depending on the subject technical area.
2. The specialist trainer shall review and enhance the materials so that they shall be as clear as is possible to those receiving the training.
3. Structured feedback from the trainees shall be sought for all training sessions so that materials can be further improved.
4. 5 days onsite training program must be provided at one central location in each GA (Kanpur, Bareilly, Jhansi)
5. Contractor must provide online training in case to case basis during support/AMC period.
6. Support:

On-call support should be provided after go-live of both the web and mobile app for 05 years.

Annual Maintenance of the Application:

1. 05 year Annual maintenance of the application after go-live. The core web portal including the mobile applications must come with yearly maintenance from the day after Go Live.
2. The maintenance may primarily long-distance maintenance from contractor's offices through VPN or remote access to the server.
3. Additional module/New Module development is out of the scope of AMC contract
4. Any new infrastructure which comes under AMC period will be mapped by contractor within AMC cost. Survey data/as built drawings will be provided by CUGL. Kindly Note that AMC payment would be released after completion of this activity only.
5. Training for mapping of new infrastructure to CUGL O&M team/CUGL projects contractors to be provided by Service provider during AMC period.
6. Provision of telephonic support and support over the web for the maintenance of existing modules. The Annual Maintenance includes the followings:
 - a. Remote Technical Support via email, phone, virtual meeting and fax etc.
 - b. System Support Maintenance
 - c. Re-installation of the software remotely
 - d. Software Bug fixing
 - e. Trouble Shooting

Supply of Cloud Server Environment for 05 year and Hosting of the Application.

Deployment Environment for the Application:

Supply and hosting of the application must be done by contractor for a period of 60 months after go-live.

1. The below servers is recommended:
 - Cloud Server (MeitY approved)
2. Specification of Server
 - a. CPU 16

- b. RAM 32 GB
- c. Storage SSD 1 TB
- d. OS Windows 2016 Std. R2
- e. 1 Public IP
- f. 1 Domain Name

Schedule Management Plan:

Project schedules for the application development will start with the deliverable identified in the project's Work Breakdown Structure (WBS). Activity definition will identify the specific work packages which must be performed to complete each deliverable. Activity sequencing will be used to determine the order of work packages and assign relationships between project activities. Activity duration estimating will be used to calculate the number of work periods required to complete work packages. Resource estimating will be used to assign resources to work packages to complete schedule development.

Once a preliminary schedule has been developed, it will be reviewed by the project team and any resources tentatively assigned to project tasks. The project team and resources must agree to the proposed work package assignments, duration, and schedule. Once this is achieved the Department will review and approve the schedule and it will then be base lined.

The following will be designated as milestones for all project schedules:

1. Completion of scope statement and project schedule and an approval must be taken from CUGL.
2. Project kick-off meeting should be signed off with the concern of EIC CUGL and Contractor both.
3. System Requirement Specification (SRS) must be signed off with the concern of EIC and Contractor both.
4. Approval of roles and responsibilities, requirement definition approval by the CUGL.
5. User Acceptance Test (UAT) of the final deliverable should be signed off by the CUGL and Contractor both

Quality Management Plan:

All members of this Project team from the Agency will play a role in quality management. It is imperative that the team ensures that work is completed at an adequate level of quality from individual work packages to the final project deliverable. The following are the quality roles and responsibilities for this Project:

Agency should maintain files of the Project Plan, associated documentation, including individual responsibilities, deliverables, schedules etc. The Torrent Gas will be responsible for approving all quality standards for this Project. The department will review all project tasks and deliverables to ensure compliance with established and approved quality standards. Additionally, CUGL will sign off on the final acceptance (UAT) of the project deliverable.

The Project Manager from the Agency shall be responsible for quality management throughout the duration of the project. The Project Manager shall responsible for implementing the Quality Management Plan and ensuring all tasks, processes, and documentation are compliant with the plan. The Project Manager should work with the project's testing specialists to establish acceptable quality standards. The Project Manager should also responsible for communicating and tracking all quality standards to the project team and stakeholders.

The Quality Specialists will be responsible for working with the Project Manager to develop and implement the Quality Management Plan. The Quality Specialists will create and maintain Quality Control and Assurance Logs throughout the project.

The remaining member of the project team, as well as the stakeholders will be responsible for assisting the Project Manager and Quality Specialists in the establishment of acceptable quality standards. They will also work to ensure that all quality standards are met and communicate any concerns regarding quality to the Project Manager.

Data Security:

The Application should be focused on Data Security for the following threats.

1. Injection
2. Broken Authentication and Session Management
3. Cross-Site Scripting (XSS)
4. Insecure Direct Object References
5. Security MIS-configuration
6. Sensitive Data Exposure
7. Missing Function Level Access Control
8. Cross-Site Request Forgery (CSRF)
9. Using Components with Known Vulnerabilities
10. Invalid Redirects and Forwards

Completion Timeline:

1. Complete CORS enabled DGPS / HAND HELD GPS survey, land base development, mapping of MDPE, Steel, Stations, Consumer data and final GIS data creation work must be completed within 12 months after issuing agreement/purchase order/work order.
2. Migration of Legacy Data, Development/customization and implementation and hosting of GIS (Web, Mobile) based Utility Planning and Asset Management System UAT must be completed within 4 month after issuing agreement/purchase order/work order.
3. Tenure of the AMC contract shall be for 60 months after completion of 12 months implementation period or Go Live whichever is earlier.
4. Total tenure shall be 72 months (12 months implementation period and 60 months AMC period).

Payment Schedule:

| Payment Terms | | |
|----------------------|---|---|
| Sl. No. | Particulars | As per SCHEDULE OF QUANTITIES (SOQ) |

Note: All payments related to site survey & Manual digitization of ABDs will be made on actual measurement/numbers basis.

Price Reduction Schedule:

A. Survey, Mapping and software development

In case contractor fails to complete the work/ services within stipulated period as defined in tender document then unless such failure is due to force majeure as defined in Bid document or reasons attributed to owner, there will be reduction in contract price @ 0.5% of the implementation cost for every week or part thereof of the delay, subject to maximum of 5% of implementation cost.

B. Annual Maintenance Contract

- I. New Features Additions to application after Go live shall be completed within 4 weeks of intimation. In case of Non-compliance a Penalty of Rs. 5000 per week shall be imposed to a maximum of Rs 50000.
- II. The system shall maintain an uptime of 99.99%. In the event of any shutdown or system slowdown that adversely affects operations, a penalty of Rs. 5,000 per day shall be imposed for the duration of the disruption.

**HEALTH, SAFETY
ENVIRONMENT [HSE]
SPECIFICATIONS**

SECTION-VII

HEALTH, SAFETY AND ENVIRONMENT [HSE] SPECIFICATIONS

1.0 SCOPE

These specifications establish the 'Health, Safety and Environment [HSE] Management' requirement to be complied with by the Contractors during executing their Job. Requirements stipulated in these specifications shall supplement the requirements of 'HSE Management' given in relevant act(s) / legislation(s).

2.0 REQUIREMENTS OF 'HEALTH, SAFETY AND ENVIRONMENT [HSE] MANAGEMENT SYSTEM' TO BE COMPLIED BY BIDDERS

- 2.1 Preferably, the Contractor should have a documented 'HSE Policy' to cover commitment of their organization to ensure health, safety and environment aspects in their line of operations or they must follow the 'HSE policy' of CUGL for safe execution of work.
- 2.2 The Contractor shall ensure that the CUGL's 'Health, Safety and Environment [HSE]' requirements are clearly understood and faithfully implemented at all level, at sites.
- 2.3 Contractor shall promote & develop consciousness for Health, Safety & Environment among all personnel working for the Contractor. Regular work-site meetings (Tool box talk) shall be arranged as 'HSE' activities to cover hazards involved in various operations during executing their jobs, location of First Aid Box, trained personnel to give First Aid, Assembly Points, and fire protection measures such as water and fire extinguishers etc.
- 2.4 Non-conformance of 'HSE' policy and directives as per CUGL by Contractor [including their sub-Contractors] as brought out during review/audit by CUGL / external agency authorized by CUGL, shall be complied by Contractor and its report to be submitted to CUGL.
- 2.5 Contractor shall adhere consistently to all provisions of 'HSE' requirements. In case of non-compliance of continuous failure in implementation of any of the 'HSE' provisions, CUGL may impose penalty and subsequent stoppage of work for non-compliance. The decision of imposing monetary penalty & work-stoppage shall be taken by EIC with consultation with Safety Officer of CUGL.
- 2.6 All fatal accidents and other personnel accidents shall be investigated for root cause by CUGL and Contractor shall extend all necessary help and cooperation in this regard. Recommend corrective and preventive actions of findings will be communicated to

Contractor for taking suitable actions should be taken by the Contractors to avoid recurrence of such incidences.

- 2.7 Contractor shall ensure that all their staffs and workers, including their sub-Contractor(s), shall wear 'Personal Protective Equipments [PPEs]' such as safety helmets, safety shoes, safety belts, dust mask, ear plug, protective goggles, gloves, etc., as per job requirements. All these gadgets shall conform to relevant IS specifications or equivalent.
- 2.8 Contractor shall assign competent & qualified personnel for carrying out various tasks/jobs as per requirement.
- 2.9 All equipments should be tested and certified for its capacity before use.
- 2.10 Contractor shall ensure storage and utilization methodology of materials that are not detrimental to the environment. Where required, Contractor shall ensure that only the environment-friendly materials are used.
- 2.11 All persons deployed at site shall be knowledgeable of and comply with the environmental laws, rules and regulations relating to the hazardous material substances and waste. Contractor shall not dump release or otherwise discharge of dispose-off any such materials without the express authorization of EIC of CUGL.
- 2.12 Contractor should obtain all work permits before start of activities [as applicable] like hot work, cold work, confined space, electrical isolation, work at heights and its use & implement all precautions mentioned therein.
- 2.13 Contractor should display at site office and work locations caution boards, provide posters, banners for safe working to promote safety consciousness, etc.
- 2.14 Contractor should properly barricade the facility where work is in progress for safe working and reclaim the work zone after completion of work to promote safety consciousness.

3.0 RELEVANT CODES FOR 'PERSONAL PROTECTION EQUIPMENTS'

| | |
|---------------------------|--|
| IS: 2925 - 1984 | Industrial Safety Helmets |
| IS: 47701 - 1968 | Rubber Gloves for Electrical Purpose |
| IS: 6994 - 1973 [Part-I] | Industrial Safety Gloves [Leather & Cotton Gloves] |
| IS: 1989 - 1986 [Part-II] | Leather Safety Boots & Shoes |
| IS: 5557 - 1969 | Industrial & Safety Rubber Knee Boots |

| | |
|------------------|---|
| IS: 6519 - 1971 | Code of Practice for Selections, Care & Repair of Safety Footwear |
| IS: 11226 - 1985 | Leather Safety Footwear Having Direct Molding Sole |
| IS: 5983 - 1978 | Eye Protectors |
| IS: 9167 - 1979 | Ear Protectors |
| IS: 3521 - 1983 | Industrial Safety Belts & Harnesses |

Guidelines for imposition of punitive fines

4.0 Punitive fines on contractors are imposed for violation of safety rules & regulations during execution of jobs. Objective of punitive fines is to work as deterrent for contractors in violation of safety rules & regulation and to improve safety atmosphere in general at all site.

Proposed guidelines for imposition are described below:

- 4.1 For first time violation of safety rules & regulation by any contractor, HSE-officer will issue a warning letter to contractor with intimation to EIC of work centre with a copy to MD & DC.
- 4.2 In case of second time violation of safety rules & regulations by same contractor, EIC will call contractor in person and will have a meeting to discuss reason for repetitive violation along with HSE-Officer. A warning letter will also be issued by EIC to contractor.
- 4.3 In case of further violation, punitive fines will be imposed on contractor. Amount as fine will be decided as per severity of violation of safety. However, minimum fine would be Rs.5,000/- and in multiple of Rs.5,000/-, thereafter for every instant.
- 4.4 This will be limited to 5% of contract value, as maximum cumulative penalty.
- 4.5 This practice of punitive fines is to be implemented across all CUGL sites for all contracts.
- 4.6 Practice of punitive fines will be applicable for projects sites also and would be over and above the deduction made by M/s CUGL for safety violation from running bills.

SCHEDULE OF RATES (SOR)

SECTION-VIII

Central U.P Gas Limited (Kanpur)

(A joint venture of GAIL (India) Limited and BPCL)

Name of Work: Bid Document for Implementation of GIS based Management System for CUGL's Infrastructure for City Gas Distribution Project of M/s. Central U. P. Gas Limited

Bid Document No: CUGL/C&P/TEN/2627/13

Name of the Bidder/
Bidding Firm/
Company :

NOTE:

(This BOQ template must not be modified/replaced by the bidder and the same should be uploaded after filling the relevant columns, else the bidder is liable to be rejected for this tender. Bidders are allowed to enter the Bidder Name and Values only)

1. The bidder shall read these SOR (s) in conjunction with the Scope of Work detailed in this Bid Document and quote accordingly.
2. Bidder to mandatory quote the GST applicable above, the evaluation of the price bid shall be done accordingly (inclusive of GST).
3. In case the bidder does not indicate/quote the rate & amount of applicable taxes in the SOR or makes any other statement (e.g., "NIL" "Inclusive", Kept as Blank", "Extra at actual" etc.), their quoted price shall be considered inclusive of all applicable GST.

| S.No. | Description | UoM | Qty. | Unit Rate (Rs.) | Total Amount (Rs.) | GST (%) | | Total Amount (Rs.) with GST |
|--------------------------|--|--------|--------|-----------------|--------------------|---------|----------------|--|
| | | | | B | C=AXB | % | Amount (Rs.) D | E=C+D |
| 1 | Physical Survey for Detection of Steel Pipeline using Pipe Locator/GPR, Associated Facilities, Corridor Survey and Mapping : Detection of Steel Network using Pipe Locator/GPR and CORS enabled DGPS/ GPS based Corridor Survey (25 meter on either side) of all above ground installations, landbase data updation. | Kms. | 98.69 | | | | | To be quoted on CUGL's e-tender portal |
| 2 | Manual Digitization of MDPE Pipeline using the As built drawings: Manually digitise/insert/plot the Gas Network data as per the hard/soft copy maps /As-Built Drawings (ABD) sketches provided by CUGL. | Kms. | 2400 | | | | | To be quoted on CUGL's e-tender portal |
| 3 | Physical Survey using DGPS/GPS for Mapping of MDPE Pipeline, Associated Installations: CORS enabled DGPS/GPS based MDPE Pipeline Survey and Mapping of all above ground installations. | Kms. | 1002.3 | | | | | To be quoted on CUGL's e-tender portal |
| 4 | Physical Survey using DGPS/GPS for Mapping of Station Installations and Consumer (Industrial & Commercial) Meter Location: CORS enabled DGPS/ GPS based survey of CGS, DRS, MRS, CNG and other stations, including Industrial and Commercial consumer meter data updation of all overground installations. | Nos | 426 | | | | | To be quoted on CUGL's e-tender portal |
| 5 | Trial Pit Conduction: Dig verification and detection survey of pipeline through Pits (Per km. minimum 2 nos. of pits is required) Minimum Specification: (Length x Width: 1.0m x 1.0m and Depth: 1m to 2.5m) | Nos. | 80 | | | | | To be quoted on CUGL's e-tender portal |
| 6 | Manual Digitization & GIS Mapping of Domestic Consumer Location using CUGL Data: GIS mapping of domestic consumer data including BP number, location, linkage with TF point and integration with application. Note: Domestic Consumer location and attribute data shall be provided by CUGL. | Nos. | 130000 | | | | | To be quoted on CUGL's e-tender portal |
| 7 | Creation of Final GIS Database and Submission of Deliverables: Creation of final GIS database including all layers, data as per deliverables and integration with application. | Job | 1 | | | | | To be quoted on CUGL's e-tender portal |
| 8 | Legacy Data Migration: Existing GIS Data validation and migration with Utility Planning and Asset Management System | Job | 1 | | | | | To be quoted on CUGL's e-tender portal |
| 9 | Software Implementation, Customization & Training: One time Development and Implementation of GIS based Utility Planning and Asset Management System (Web Portal) Integrated with Mobile Application. 5 Days Training shall be provided to the user for effective use of the solution. Concurrent User Details: Editing- Unlimited Viewing- Unlimited Note: 1. Entire Solution must be in open-source platform 2. Application, source code property right must be in the name of CUGL. 3. Agency must not deliver the same source code to any other agency/client in future. A Non-Disclosure Agreement (NDA) to be signed off between Bidder and CUGL. 4. Application must be in perpetual mode | Job | 1 | | | | | To be quoted on CUGL's e-tender portal |
| 10 | Annual Maintenance Contract: AMC of the Solution after Go-Live through Remote Support Complete web portal, mobile app, database and source code to be handed over to CUGL after completion of AMC period. | Months | 60 | | | | | To be quoted on CUGL's e-tender portal |
| 11 | Supply of MeitY Approved Cloud Server (as per specification mentioned) after UAT and Hosting of the application for Go-live | Months | 60 | | | | | To be quoted on CUGL's e-tender portal |
| Grand Total (Rs.) | | | | | | | | ₹ 0.00 |
