REPLY TO BIDDER'S QUERIES

Bid Document for Rate Contract for the Procurement of SS Tubes for Kanpur, Unnao, Bareilly & Jhansi for City Gas Distribution Project of M/s Central U.P. Gas Limited, for the period of 01 Year

Bid Document No.: CUGL/C&P/TEN2526/39 dated 26.11.2025
(NIC Tender ID: 2025_CUGL_256807_1)

Sr. No.

Bidder's Queries/ Observation/Comments

CUGL Response

Specifically, in Sr No - 2, it states that the required proposed Mill shall have Hot Finished (Extrusion). We want clarification that we procure the hot extruded Mother Hollow from outside, and the subsequent cold finishing (Pilgering) process is conducted in-house. Kindly confirm if this method is acceptable as per the tender requirements

As per the Bidder Evaluation Criteria Sr.no-2, the bidder's proposed mill shall have the experience in manufacturing SS tubes as per ASTM A269 (latest edition) used for CNG Service & should have hot finished (Extrusion) & cold finished (Pilgering) processes inhouse.

Accordingly, procurement of only hot-extruded Mother Hollows from an external source does not meet the BEC requirement, as per the BEC, the proposed mill itself must possess both hot finished (Extrusion) & cold finished (Pilgering) processes In-house.

Therefore, the manufacturing route described in the bidder query (externally procured hot-extruded hollows + in-house pilgering in vendor plant) shall not be considered acceptable for meeting BEC Sr. No. 2

Bidder are required to submit the "REPLY TO BIDDER'S QUERIES" alongwith the bid duly signed & stamped.
